# Severe Weather

If weather conditions indicate possible danger from severe weather, the RAVE Emergency Notification System will be utilized and the warning sirens in Oskaloosa will sound. If this occurs during the night, residence hall and security staff will take steps to notify on-campus students and personnel.

Avoid wide span structures such as gyms or metal buildings. Remain in your shelter area until instructed otherwise by your hall staff, security, or local authorities. If possible, keep a flashlight and battery-operated radio to take to the shelter area.

## What do the RAVE system messages mean?

### **WATCH**

A severe thunderstorm or tornado **watch** indicates that such storms are possible in the Oskaloosa area.

When you become aware that a watch has been issued, tune in to a local radio station (KBOE 104.9 FM) or TV station in order to keep up to date regarding changing weather conditions.

### **WARNING**

A severe thunderstorm or tornado **warning** is when weather conditions warrant actions.

TAKE SHELTER IN  
DESIGNATED AREAS.
