Notes taken reflecting on the overall scores

- Overall Averages – the individuals are less than in the single year spans because some individuals were in multiple year spans. Therefore, overall the passing percentage is better overall than year to year.
- WPU falls below the state scoring mean every year.
- DL totally dropped 2020-2021 – some candidates came back after CBASE was dropped, ELLs, and high anxiety. No content section dropped more than others.
- Campus scores have fluctuated and are below DL scores until 2019-present

- All content area scores are on the low side of the average range

**2019-2020 DL – One student scored 100. This student has extremely high-test anxiety and has sought out a psychiatrist to assist with the anxiety. Student performed very well when student teaching. Second row of scores is the average without the student’s score of 100.

*** 8 unpassed DL tests were students who are ELLs. Support provided by Praxis II Prep class & tutoring offered. 3 unpassed DL tests was a student with anxiety issues; she got back on her medicine and passed PLT first time. She had been subbing. There were the lowest scores as noted on the average score.

Notes taken reflecting on the overall scores - PLT

- For the overall Averages – the individuals are less than in the single year spans because some individuals were in multiple year spans. Therefore, overall the passing percentage is better overall I than year to year. This is NOT First time pass rate, but overall pass rate.
- WPU falls below the state scoring mean every year.
- DL scores are on an improvement trend (dip in 2016-17 and 2019-2020), while campus scores have fluctuated between the years.
- Pass rates on PLT is much higher than content test, which shows a knowledge on the skills and pedagogy in teaching.
- 50% of DL and 71% of FTF took Praxis II Prep class in 2020-2021

- Trends show drop in Instructional Process, fluctuation in Students as Learners and Scenarios, growth in Assessment and steady in PD (reminder some include students repeating and passing tests).
- The scenario has been fairly consistent. A continued point of emphasis in the Praxis II Prep courses on how the scenario is scored. Advice on how to get a perfect score shared by 4 students who scored either 15/16 or 16/16 in the methods used to write a solid constructed responses has been provided on Moodle – Praxis Prep for All Candidates.
- One point average higher on PD for DL candidates than campus. The hypothesis is the additional PD paraeducators experience over traditional students.
