WILLIAM PENN UNIVERSITY NURSING PROGRAM STUDENT GUIDEBOOK

The Student Guidebook serves as a guide for successful and timely program completion. The nursing student is responsible for the Guidebook content (i.e. policies and procedures). All changes in policies and procedures and important communication from the Division of Nursing will be conveyed through the William Penn University email system. The nursing student will be responsible for such communication.

This Nursing Student Guidebook is designed to be used in conjunction with other William Penn University publications including the William Penn University Catalog <https://www.wmpenn.edu/academics/academic-resources/course-catalog/> and the William Penn University Student Guidebook, https://www.wmpenn.edu/wp-content/uploads/2018/07/Compiled-Student-Handbook_FINAL.pdf.

DIVISION OF NURSING: PROGRAM INTRODUCTION:

Welcome!

Congratulations on your selection to William Penn University Nursing. We are excited to welcome you. You are embarking on a new journey in your career.

As a William Penn University student, you will join a community of scholars committed to improving health care in the United States and globally. You will establish friendships with classmates and faculty that will continue throughout your life. After graduation, as alumni, you become a member of a much larger William Penn University Community.

The William Penn University nursing program prepares nursing students to practice at the Baccalaureate level. Students will have the opportunity to practice in collaborative environment, experiencing leadership roles in hospitals, clinics, and community health agencies.

Orientation will acquaint you with the curriculum, organization, policies, and procedures of William Penn University and begin your new education path.

For now, get ready to work hard, soak in all you can as a student, and look forward to what the next professional steps will be for you after this program is completed.

Sincerely,

A handwritten signature in black ink that reads "Kimberly J. Brown". The signature is fluid and cursive, with a large initial 'K'.

Dr. Kimberly J Brown DNP, MSN, BSN, PMHNP, ARNP FNP-C
Director of Nursing

UNIVERSITY MISSION STATEMENT

William Penn University provides the opportunity for an educational experience with a focus on leadership, technology, and the Quaker principles of simplicity, peace-making, integrity, community, and equality.

We fulfill our mission by working toward seven goals derived from the principles listed in the Mission Statement. Though each campus Department and Division interprets the goals in ways relevant to their areas of expertise, all Departments and Divisions work to realize these seven goals that are directly connected to the Mission Statement.

Mission Statement Principles:

Mission Statement Principles	Goals that will guide the University These goals identify how the principles listed in the Mission Statement will be pursued at William Penn University, how the University will provide an educational opportunity for its students, through the University's Academic Programs and Co-Curricular Departments.
Leadership	We will influence others to worthy action.
Technology	We will master relevant technology.
Simplicity	We will focus on essential ideas and values.
Peacemaking	We will understand various viewpoints and be able to respectfully and peaceably embrace, negotiate, or decline those views.
Integrity	We will create new and relevant knowledge and methods.
Community	We will cooperate, communicate, and coordinate our efforts. We will also participate in communities beyond the University.
Equality	We will create the opportunity for all to learn and to share their experience.

William Penn University Quaker Principles Introduction

William Penn University is a liberal arts university affiliated with the Society of Friends. The university was founded by Quaker pioneers in 1873 to provide a quality education to all interested men and women regardless of race, creed, or socioeconomic status.

Division of Nursing's Mission and Philosophy

The Division of Nursing embraces a commitment to *The Theory of Human Caring and the Ten Caritas Processes* embedded in Dr. Jean Watson's Theory and William Penn University's *Seven Quaker Principles*, which provide the registered nurse an opportunity to build on their pre-licensure education and develop complex decision-making skills to provide safe and holistic care to self and all communities.

Division of Nursing's Vision Statement

The William Penn University nursing program's mission is to prepare BSN graduates with enhanced leadership skills essential to nursing practice in a diverse and ever-changing healthcare environment. Educational preparation is grounded in the nursing program's outcomes and William Penn's "Principles and Goals."

Division of Nursing's Integrated Process

The following processes are embedded in the program outcomes. They are essential elements of the nursing program:

- IOM Core Healthcare Professional Competencies
- AACN Essentials of Baccalaureate Education
- Jean Watson's Theory of Human Caring
- William Penn's Quaker Principles.

Institute of Medicine (IOM) Core Competencies for Health Care Professionals

- Provide patient-centered care
- Work in interdisciplinary teams
- Employ evidence-based practice
- Apply quality improvement
- Utilize informatics

AMERICAN ASSOCIATION OF COLLEGE OF NURSING (AACN)

Essentials of Baccalaureate Education

Essential I:	Liberal Education for Baccalaureate Generalist Nursing Practice
Essential II:	Basic Organizational and Systems Leadership for Quality Care and Patient Safety
Essential III:	Scholarship for Evidence Based Practice
Essential IV:	Information Management and Application of Patient Care Technology
Essential V:	Health Care Policy, Finance, and Regulatory Environments
Essential VI:	Interprofessional Communication and Collaboration for Improving Patient Health Outcomes
Essential VII:	Clinical Prevention and Population Health
Essential VIII:	Professionalism and Professional Values
Essential IX:	Baccalaureate Generalist Nursing Practice

CONCEPTUAL FRAMEWORK

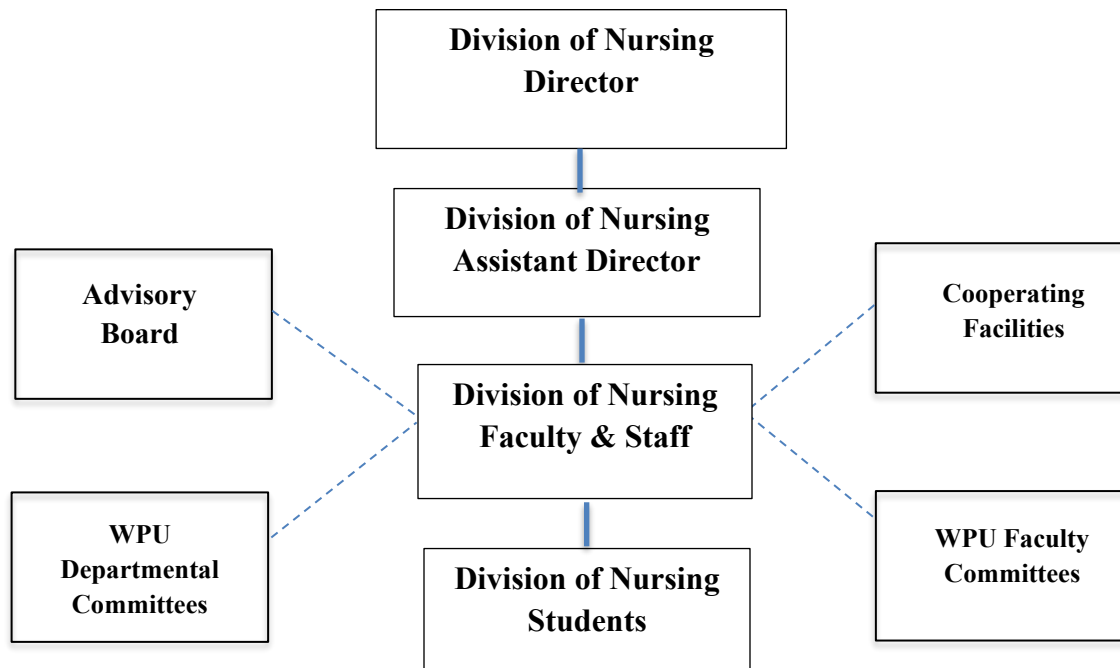

Jean Watson Caritas Processes

1. Practicing loving-kindness and equanimity within the context of caring consciousness.
2. Being authentically present and enabling and sustaining the deep belief system and subjective life world of self and one being cared for.
3. Cultivating one's own spiritual practices and transpersonal self, going beyond ego self.
4. Developing and sustaining a helping-trusting, authentic caring relationship.
5. Being present to, and supportive of the expression of positive and negative feelings.
6. Creatively using self and all ways of knowing as part of the caring process; engaging in artistry of caring-healing practices.
7. Engaging in genuine teaching-learning experience that attends to wholeness and meaning, attempting to stay within other's frame of reference.

8. Creating a healing environment at all levels, whereby wholeness, beauty, comfort, dignity, and peace are potentiated.
9. Assisting with basic needs, with an intentional caring consciousness, administering “human care essentials,” which potentiate alignment of mind-body-spirit, wholeness in all aspects of care.
10. Opening and attending to mysterious dimensions of one’s life-death; soul care for self and the one being cared for; “allowing and being open to miracles.”

DIVISION PROGRAM OUTCOMES AND DEFINITIONS

At the completion of the program, the baccalaureate prepared nurse will:

Program Outcome 1:

Provide safe and holistic patient centered care to self, clients, families, communities and global community. (BSN E. #I & IX)

Definition: The practice of nursing allows the graduate to integrate knowledge, skills and values from the arts and sciences to provide safe, quality care across the healthcare continuum. Additionally, this outcome integrates Jean Watson's Caritas Processes: # 1, 4, 6, 8, 9 and Quaker Principles: # 1, 2, 4.

Examples include, but not limited to:

- Ethical reasoning
- Scholarly inquiry
- Culturally sensitive caring
- Scholarly analysis
- Collegial caring
- Scholarly writing
- Integration of theories and concepts

Program Outcome 2:

The baccalaureate prepared nurse will effectively work in interprofessional teams. (BSN E. #VI)

Definition: Effective communication and collaboration among health professionals is imperative to providing safe and effective care. Interprofessional education enables the baccalaureate graduate to enter the workplace with baseline skills for effective communication that will improve patient outcomes. Additionally, this outcome integrates Jean Watson's Caritas Processes: # 1, 5, 7 and Quaker Principles: # 2, 3.

Examples include, but not limited to:

- Communication
- Collaborative strategies
- Relationship building
- Group dynamics
- Accountability
- Advocacy
- Conflict resolution

Program Outcome 3:

The baccalaureate prepared nurse will employ evidence-based practice. (BSN E. #III & IX)

Definition: Professional nursing is grounded in evidenced-based practice. The baccalaureate graduate involves scholarly appraisal, integration of evidence and systematic evaluation to address and improve nursing practice. Additionally, this outcome integrates Jean Watson's Caritas Processes: # 7 and Quaker Principles: #3.

Examples include, but not limited to:

- Evidence-based practice
- Basic applied statistics
- Analysis
- Systematic evaluation
- Synthesis
- Systematic review
- Ethical conduct of research

Program Outcome 4:

The baccalaureate prepared nurse will apply quality improvement. (BSN #V)

Definition: The baccalaureate nurse should possess basic understanding of the broader context of healthcare including processes and systems of care with the objective of improving quality. Additionally, this outcome integrates Jean Watson's Caritas Processes: # 1, 2, 4, 6, 9 and Quaker Principles: # 1, 3.

Examples include, but not limited to:

- Evidence-based practice
- Social responsibility
- Policymaking
- Policy analysis and evaluation
- Political activity
- Influencing health outcomes
- Professional organization involvement

Program Outcome 5:

The baccalaureate prepared nurse will utilize informatics. (BSN E. #IV)

Definition: The baccalaureate graduate should possess basic knowledge and technical skills in information technology systems to gather evidence that will guide safe nursing practice. In addition, the professional nurse should possess basic competence in computer and information literacy to improve patient outcomes. Additionally, this outcome integrates Jean Watson's Caritas Processes: # 1, 7, 8 and Quaker Principles: # 3, 4, 5.

Examples include, but not limited to:

- Ethical practice
- Retrieval of information systems
- Use of patient care technologies
- Clinical judgement
- Retrieval of useful literature
- Health informatics knowledge
- Information literacy
- Information systems knowledge

Program Outcome 6:

The baccalaureate prepared nurse will demonstrate leadership skills. (BSN E. #II)

Definition: Leadership skills are essential to the baccalaureate nurse to elicit ethical and critical decision-making in an everchanging healthcare system. The nursing professional should possess knowledge and skills in leadership, quality improvement, and patient safety necessary to provide quality healthcare. Additionally, this outcome integrates Jean Watson's Caritas Processes: # 1, 2, 6, 7 and Quaker Principles: # 3, 4, 5.

Examples include, but not limited to:

- Leadership skills
- Teamwork skills
- Observation
- Decision making
- Theoretical perspective
- Research utilization
- Interpretation

Program Outcome 7:

The baccalaureate prepared nurse will demonstrate health promotion. (BSN E. #VII)

Definition: Health promotion, disease and injury prevention across the lifespan are essential elements of baccalaureate nursing practice at the individual and population levels. All these concepts are necessary to improve population health. Additionally, this outcome integrates Jean Watson's Caritas Processes: # 1, 6, 7, 8, 9, 10 and Quaker Principles: # 1 – 5.

Examples include, but not limited to:

- Prevention and harm reduction
- Dialogue/social interaction
- Ethical and legal decision-making r/t population health
- Outcome measurement
- Global health
- Health literacy
- Caring behavior

Program Outcome 8:

The baccalaureate prepared nurse will display professional behaviors. (BSN E. #VIII)

Definition: Nursing practice is grounded in professional values and professional practice. Nursing practice is respected for caring, compassionate, sensitive, and patient-centered care. The baccalaureate education includes development of professional values and value-based behavior. Additionally, this outcome integrates Jean Watson's Caritas Processes: # 1 – 10 and Quaker Principles: # 1 – 5.

Examples include, but not limited to:

- Moral, ethical, and legal conduct
- Accountability
- Advocacy
- Self-care
- Professional image
- Self-understanding
- Communication
- Interprofessional teams
- Self-reflection

AMERICAN NURSES ASSOCIATION (ANA) CODE OF ETHICS

William Penn BSN students are expected to comply with the ANA's Code of Ethics for Nurses available at <https://www.nursingworld.org/coe-view-only>.

Provision 1) The nurse practices with compassion and respect for the inherent dignity, worth, and unique attributes of every person.

Provision 2) The nurse's primary commitment is to the patient, whether an individual, family, group, community, or population.

Provision 3) The nurse promotes, advocates for, and protects the rights, health, and safety of the patient.

Provision 4) The nurse has authority, accountability, and responsibility for nursing practice; makes decisions; and takes action consistent with the obligation to promote health and to provide optimal care.

Provision 5) The nurse owes the same duties to self as to others, including the responsibility to promote health and safety, preserve wholeness or character and integrity, maintain competence, and continue personal and professional growth.

Provision 6) The nurse, through individual and collective effort, establishes, maintains, and improves the ethical environment of the work setting and conditions of employment that are conducive to safe, quality health care.

Provision 7) The nurse, in all roles and settings, advances the profession through research and scholarly inquiry, professional standards development, and the generation of both nursing and health policy.

Provision 8) The nurse collaborates with other health professionals and the public to protect human rights, promote health diplomacy, and reduce health disparities.

Provision 9) The profession of nursing, collectively through its professional organizations, must articulate nursing values, maintain integrity of the profession, and integrate principles of social justice into nursing and health policy.

* A.A. degree graduates of (Regional or CHEA approved) accredited degree-granting institutions are accepted as having completed all Penn Leadership Core requirements, except LDRS 290 Quaker Values and LDRS 390 Contemporary Leadership, with possible exceptions into certain majors.

*A.D.N, A.A.S, & A.S. degree graduates, depending on transfer credits, may need to complete Penn Leadership Core requirements of LDRS 290 Quaker Values, LDRS 390, Contemporary Leadership, LDRS 102 English Comp II, LDRS 105 Computers & Technology, LDRS 200 Principles of Communication, LDRS 220/221 Arts & Society, and survey History course.

ADMISSION INFORMATION & REQUIREMENTS

Admission Requirements

In keeping with the Quaker tradition of individual worth, William Penn University considers each applicant in the light of individual potential to benefit from a William Penn education.

- Completion of an online application for admissions.
- Receipt of official transcripts from all high schools, colleges or GED results sent directly from those institutions.
- Proof of an ACT or SAT test sheet showing all test results.
- Graduation from an accredited secondary school.
- 2.0 cumulative high school grade point average (GPA) or higher (2.5 recommended)
- Composite score of 18 on the ACT or equivalent SAT score. Exceptions are made only by the Admissions and Financial Aid Committee.

Acceptance into William Penn University

The admission decision is made for each applicant as soon as all materials are received. Following notification of acceptance, a student will confirm their intention to enroll by submitting a \$50 tuition deposit along with form. This deposit is applied toward the student's tuition.

Course Registration in the Nursing Program

A student will need to meet with their advisor prior to registering for classes each semester. This registration can be done through the Division of Nursing. The dates are usually in October or March of the academic year.

Transfer Courses

All courses will be evaluated for transfer credit into WPU's 4-year Pre-Licensure BSN program. Selected courses must be completed with a "C" or above to be accepted for the nursing program. Required courses below this standard will need to be repeated, either at a community college or at WPU.

The Registrar's Office will review all transcripts for transfer credit. The Division of Nursing only evaluates nursing courses for credit transfer. Nursing courses will be reviewed on a case-by-case basis. The student may be asked to provide syllabus with course content, tests, papers, etc. to assist in the review of the said courses. Students may be required to demonstrate proficiency of content to receive credit.

It is the student's responsibility to secure an official transcript from any previous institution. Transfer students have approximately **4 weeks** from the beginning of their first enrolled term to

provide official transcripts to William Penn University. At the end of this period, if official transcripts have not been received, financial aid may be modified, and academic credit will not be awarded for this prior work. A student may appeal to the Vice President for Academic Affairs to have past credit transferred in, after the allowable time frame has passed. **Please see WPU catalog for other University requirements.**

LPN Transfer Students

Students who are LPNs are not required to take the TEAS test if they have an ACT/SAT composite of 20 or higher or a cumulative GPA at their former school of 2.5 or higher on a 4-pt. scale and have at least 58.87 credits transferring for admission to the WPU Division of Nursing.

All transcripts will be reviewed by the registrar's office as well as the Division of Nursing for course credit.

4-Year Pre-Licensure Bachelor of Science in Nursing Requirements

The 4-Year Pre-licensure Bachelor of Science in Nursing (BSN) program is designed to provide an education with an emphasis on liberal arts and science courses (concentration in math & science) prior to entrance into the nursing program. **See Program Section.**

Acceptance into the university can be through Regular Admission or Early Admission.

Regular Admission:

The regular admission process is to complete steps for admission at William Penn University. Select the 4-year Pre-Licensure Bachelor of Science in Nursing major. Acceptance requirements for William Penn University will be applied. The student will be assigned an advisor from the Division of Nursing to assure they are on track to complete all required courses prior to starting the final two years of the BSN program.

In order to be accepted into the final two years of the BSN program, the student must complete the following requirements:

- Complete a Test of Essential Academic Skills (TEAS), with a score of 60 or greater
- Satisfactorily complete required general education courses and a CNA (Certified Nursing Assistant) certification course.
- Cumulative GPA of 2.75
- Minimum grade of C (2.0) in each of the following courses (or equivalent courses):

CHEM 101 General Chemistry I	BIOL 314 Human Anatomy
BIOL 202 Medical & Scientific Terminology	KINS 110 Wellness & Fitness
BIOL 308 Microbiology	MATH 102 Intermediate Algebra
BIOL 315 Physiology	

The TEAS test can be taken up to three times, with remediation on each attempt.

Progression: A cumulative GPA of 2.75 must be maintained. A grade of C (2.0) or above must be attained in each nursing course.

Nursing courses with a clinical or preceptorship component may not be taken if the following has occurred:

- Denied licensure by the Iowa Board of Nursing.
- Registered Nurse license is currently suspended, surrendered or revoked in any U.S. jurisdiction.
- Registered Nurse license is currently suspended, surrendered or revoked in another country due to disciplinary action.
- Student has failed a criminal background check.

Early Admission:

The early admission process is a formal understanding between the high school student and William Penn University in which a student may be granted admission to William Penn University and provisional admission into the BSN program. *Early admission students must also meet the requirements for final admission to nursing (acceptance into the last two years of the program).*

Application Process for Early Admission:

- Students who are seeking the early admission option must submit their application by March 1st of their senior year of high school.
- The student must provide documentation of the following requirements:
 - ACT of 23
 - High School transcript showing completion of the following courses with a cumulative GPA of 3.0 or better on a 4.0 grade scale:
 - Biology (2 semesters)
 - Chemistry (2 semesters)
 - English (4 semesters)
 - Math (2 semesters including algebra)

The student must also maintain the following requirements while at William Penn University in order to enroll into the final 2 years of the nursing program:

- Complete a Test of Essential Academic Skills (TEAS), with a score of 60 or greater
- Satisfactorily complete required general education courses and a CNA (Certified Nursing Assistant) certification course.
- Cumulative GPA of 2.75

- Minimum grade of C (2.0) in all the following courses (or equivalent courses):

CHEM 101 General Chemistry I	BIOL 314 Human Anatomy
BIOL 202 Medical & Scientific Terminology	KINS 110 Wellness & Fitness
BIOL 308 Microbiology	MATH 102 Intermediate Algebra
BIOL 315 Physiology	

The TEAS test can be taken up to three times with remediation on each attempt.

Progression: A cumulative GPA of 2.75 must be maintained. A grade of C (2.0) or above must be attained in each nursing course.

Nursing courses with a clinical or preceptorship component may not be taken if the following has occurred:

- Denied licensure by the Iowa Board of Nursing.
- Registered Nurse license is currently suspended, surrendered or revoked in any U.S. jurisdiction.
- Registered Nurse license is currently suspended, surrendered or revoked in another country due to disciplinary action.
- Student has failed a criminal background check.

Please note:

If a student does **NOT** meet the early admission requirements, the student **CAN** be accepted into the program if the Regular Admission requirements are met.

Currently the price for taking the TEAS test is \$25.00 payable to William Penn University in the business office and \$65.00 payable at the time of testing with a debit/credit card through TEAS as a student log in to take the test. Allow at least 6 hours to take the computerize test which are scheduled through Darrell Baxter at 641-673-2127 in the Student Success Center during finals week at the end of every fall and spring semester.

General Guidelines for Progression and Retention in the 4-year Pre-Licensure Nursing major:

1. A minimum cumulative grade point average (GPA) of 2.75 for courses taken at William Penn University.
2. A minimum grade of C in each course required for the nursing major.
3. No courses required for the major (nursing courses and correlative courses) have been repeated more than one time.
4. No more than two courses required for the major (nursing courses or correlative courses) have been repeated.
5. A level of health is maintained that does not interfere with the student's ability to function adequately and safely in the nursing major. The student is expected to seek appropriate professional assistance as needed. The faculty may recommend the need for assistance, a leave of absence, and/or withdrawal from the program.
6. Satisfactory performance in all classrooms, clinical, and laboratory (including simulation) experiences.
7. Safe performance in clinical practice.
8. Appropriate professional behavior.
9. Preparation of required assignments prior to class, clinical, or lab.
10. Follow-through with assignments/care at appropriate level.
11. Evidence of emotional maturity when caring for patients.

RN-BSN Admission Requirements

Admission to the RN-BSN program is through the Admission's Office of William Penn University. Admission requirements are as follows:

- Acceptance to William Penn University.
- Final transcript(s) documentation received.
- A transcript evaluation completed and on file.
- Evidence of current unencumbered Registered Nurse licensure in the state of Iowa, prior to starting any preceptorship. A student's license must remain current while enrolled in William Penn's nursing program.
- Registered nurse applicants must have an admissions cumulative grade point average of 2.5 and must maintain a cumulative GPA of 2.5 throughout the program.
 - Students with an admission cumulative GPA of 2.0 may be admitted to the university and conditionally admitted to the Nursing Program with the stipulation of earning at least a cumulative 2.5 GPA the first semester and maintaining the cumulative 2.5 GPA throughout the program.
 - Upon admissions, unless special circumstances are agreed upon, at least one-half of the total credits required for the baccalaureate degree in nursing are granted and applied to the program, based on active RN license and/or academic transfer credit. This qualifies students to transfer at the junior level. Additional general education and support course credit may be transferred as determined by the WPU Registrar.

Nursing courses with a clinical or preceptorship component may not be taken if the following has occurred:

- Denied licensure by the Iowa Board of Nursing.
- Registered Nurse license is currently suspended, surrendered, or revoked in any U.S. jurisdiction.
- Registered Nurse license is currently suspended, surrendered, or revoked in another country due to disciplinary action.
- Student has failed a criminal background check.

Nurses in the RN-BSN program must maintain the following documentation in Castlebranch:

- Criminal Background Check and Abuse Registry
- Current CPR card
- Nursing Student Physical Examination
- Immunization or immunity status (TD/tdap, Mantoux Test, Seasonal Influenza, Mumps, Measles, Rubella, Chickenpox, Hepatitis B)
- Mandatory Reporter: Child and Dependent Adult Abuse
- Standard Precautions Education
- HIPAA Education

The RN to BSN sequence is specially designed for the Associate Degree Registered Nurse (RN). The Associate Degree RN to BSN nursing courses are offered in a sequential manner. The nursing courses utilize a variety of formats to meet the nursing program outcomes. (See Addendum #)Preceptorships offer additional learning experiences.

The RN to BSN portion of the Student Guidebook serves as a guide for successful and timely program completion. The RN to BSN student is responsible for the Guidebook content (i.e., policies and procedures). The RN to BSN student needs to be aware that communications from the Division of Nursing (including new policies and procedures) will be conveyed via the William Penn e-mail system, and the nursing student will be responsible for such communication. Students should receive their user account information at the time they register for classes. It is the student's financial and educational responsibility to keep verifications current throughout the program.

**May 2021
Graduation**

General Guidelines for Progression and Retention in the RN-BSN Nursing major:

1. A minimum cumulative grade point average (GPA) of 2.50 for courses taken at William Penn University.
2. A minimum grade of C in each course required for the nursing major.
3. No courses required for the major (nursing courses and correlative courses) have been repeated more than one time.
4. No more than two courses required for the major (nursing courses or correlative courses) have been repeated.

5. A level of health is maintained that does not interfere with the student's ability to function adequately and safely in the nursing major. The student is expected to seek appropriate professional assistance as needed. The faculty may recommend the need for assistance, a leave of absence, and/or withdrawal from the program.
6. Satisfactory performance in all online classrooms, clinical, and preceptor experiences.
7. Safe performance in clinical and preceptor practice.
8. Appropriate professional behavior.
9. Preparation of required assignments prior to class, clinicals and preceptor.
10. Follow-through with assignments/care at appropriate level.
11. Evidence of emotional maturity when caring for patients.
12. Registered nursing students are expected to provide a copy of their current nursing Iowa license and provide CastleBranch with an updated copy if the license expires during the nursing program. New ADN graduates may be admitted to the nursing program on a conditional basis during their licensure process. Students who have not passed their nursing boards prior to any courses that have a preceptorship must withdrawal from the program; and can reapply once they have successfully obtained registered nurse licensure.

CNA Course Admissions Requirements-Nursing Essentials

Admissions to the CNA course begins with completing an application to the university through Admissions. This course may be taken by itself or as part of the nursing program. The CNA course is a 75-hour course with 30 hours of classroom time, 15 hours of laboratory, and 30 hours of clinical time. William Penn University offers NURS 201 Nursing Essentials, which can credential a student as a Certified Nurse's Aide. A physical exam, immunization listing, and background check are required at least 30 days before enrollment in this course. For more information see CNA Policy Guidebook. **See Addendum V & W.**

NURSING MAJOR INFORMATION

Notice of Acceptance into the Nursing program

Notification of acceptance into the nursing program will be emailed and/or mailed to the student's email and/or mailing address in the data-base system. A copy of the notification will be kept in the student's nursing file.

Grading in Nursing Courses

1. The grading scale for the Division of Nursing is:

A	94-100	C	74-77	I	Incomplete
A-	90-93	C-	70-73	W	Withdrawal from class
B+	88-89	D+	68-69		
B	84-87	D	64-67		
B-	80-83	D-	60-63		
C+	78-79	F	Below 60		

Grades are calculated as percentages.

2. If a student receives a "C-", "D" or an "F" as a final grade in a nursing course, the student must repeat the nursing course. A Student may repeat a nursing course one 83.5 time. For nursing courses retaken, the most recent grade is computed into the GPA.
3. See the university catalog for the University Grade Point System.
4. Grading Criteria:
 - a. All papers must be submitted and handed in on the due date/time Papers will be considered late if not handed in on the due date/time.
 - b. *10% will be deducted for each calendar day any assignment is late, including weekends and any holiday.*
 - c. All assignments will be due (hand in) on assigned dates at the beginning of class or designated by the instructor. To avoid a daily 10% reduction in grade, please request an extension in writing to the course faculty at least (three) 3 days prior to the assigned due date to negotiate new time frames.
 - d. Arrangements to make up assignments *are at the discretion of the course faculty. The missed assignment must be completed within one week from the time the arrangements have been made to receive credit.*

Academic Support for Nursing Students

William Penn University and the Division of Nursing strive to assist students with the intellectual development necessary to achieve their academic goals. All students are assisted in these efforts through various services offered by the university. The Division of Nursing expects and encourages students to use the services offered.

The Student Success Center strives to provide resources appropriate for and available to all students enrolled at William Penn University. These services assist students in achieving academic success, gaining scholastic independence, improving self-esteem, and preparing for graduate study and professional endeavors. The Student Success Center endeavors to reach and maintain the following goals and objectives:

- Promote personal and academic excellence among students, faculty, and staff.
- Work cooperatively with faculty and staff across campus to improve opportunities for students to be successful.
- Provide efficient academic support services that help all William Penn University students maximize their academic performance.
- Support William Penn University academic standards and policies.
- Sustain a friendly, helpful environment conducive to learning.
- Evaluate and modify resource center policies and procedures on a regular basis.
- Keep abreast of current and effective trends in academic support and maintain non-discriminatory practices in operations and services.

Contact: The Success Center641-673-2172

Extended Time

Only students with documented learning disabilities will have the option of extended time. The official healthcare provider documentation must include the amount of extra time that the student is to receive (ex. 1.5- or 2.0-time extension). The hard copy of the documentation must be filed in the Vice President for Academic Affairs.

Tutoring

A tutoring program is offered for historically challenging courses through the Student Success Center. The Student Success Center students have completed these courses and have been recommended to the Student Success Center by faculty. The colleagues facilitate study sessions with individuals or small groups as needed throughout the semester and report to course instructors on student participation.

Faculty Advisor

At the time of admission to William Penn University, each student admitted to the nursing program is assigned a faculty advisor who works with the student to develop individualized

education and professional plans. The students are expected to meet with their advisors regularly to ensure the appropriate scheduling of courses and continuous progress through the major. The student and the advisor need to review the plan at each registration and revise as necessary. The review and revision must be done before the next registration occurs at William Penn University.

Students who have questions about their academic status will find their advisors very helpful in offering assistance or making the appropriate referrals to those who can assist students with their specific needs.

If a student wishes to change academic advisors, this can be done by discussing the proposed change with the new academic advisor and completing the Change of Major or Advisor form.

Course Faculty

Once a student has enrolled in a nursing course, the faculty of that course will be the most helpful resource concerning all matters associated with the course. Questions about course assignments, lecture sessions, clinical experiences, and instructional unit requirements should be directed to the course faculty. Students who anticipate special needs, such as known absences, disability accommodations, or assistance with assignments, should confer with the course faculty they are enrolled in. Faculty members may make referrals to other sources of assistance as needed.

Academic Integrity

Students enrolled in the nursing program are expected to follow the policies and procedures of the University and Division of Nursing.

Accountability Agreement

An Accountability Agreement is a joint agreement between the course faculty, a nursing student, and the student's academic advisor. This agreement is issued when a student has been found to demonstrate action that is not consistent with course policies/expectations or the assigned clinical agency's policies and procedures. Through dialog with the faculty, the student can reflect on ways to meet course/program outcomes. If the outcomes are not met, the student will earn a failing grade in the course.

1. A student who demonstrates behavior not consistent with the course and/or clinical agency policies/expectations will conference with course faculty, and a Written Warning will be provided to the student. **See Addendum H.** A copy of the Written Warning will be given to the student by the professor.
2. If the behavior continues, then an Accountability Agreement will be issued. **See Addendum G).**
3. The student, course faculty, and advisor must sign and date the Accountability Agreement. The student's agreement must be signed by all parties for the student to continue in the course, or the student will receive a grade of F for the course. The student may respond with written comments.
4. The original copy of the Accountability Agreement and the accompanying Written Warning (if applicable) will be placed in the student's advising file by the professor. The student will receive a copy of the warning and Accountability Agreement.
5. A student can be issued an Accountability Agreement two (2) times while in the nursing program. If student behavior necessitates being issued an Accountability Agreement for the third time, this is grounds for dismissal from the nursing program.

Student Code of Conduct

The William Penn University Student Code of Conduct defines the minimum standards of behavior expected of students while on campus and in the community. Students are responsible for complying with university rules and policies described in the Student Guidebook, Housing Agreement, and catalog. While individual freedom and development are of central concern. The students are expected to make choices with awareness that his/her actions may have an effect upon the rights and freedoms of other individuals and groups. Students enrolled in the university must assume responsibility for any action that is contrary to the William Penn Student Code of

Conduct. By signing the Student Code of Conduct document, the student pledges to observe the code. **See form on WPU web site.**

Core Performance Standards

The Division of Nursing, in defining nursing as a practice discipline with cognitive, sensory, affective, and psychomotor performance requirements, has adopted a list of “Core Performance Standards” **See Addendum M.** Each standard has an example of an activity, which a student would be required to perform while enrolled in the William Penn University nursing program.

Admission to and progression in the nursing program is not based on the standards. Rather, the standards are used to assist each student in determining whether accommodations or modifications are necessary.

Technology Competencies & Requirements

As part of the educational process and to pursue your goal at WPU, you as a nursing student are required to possess certain technology requirements and abilities:

1. Send, receive, reply & forward e-mail for correspondence with faculty and students;
attach a file to an e-mail message
2. Ability to check university e-mail daily
3. Microsoft Word
 - a. Create a Word document
 - b. Apply basic formatting (fonts, centering, margins, line spacing, etc.)
 - c. Insert page numbers and running head
 - d. Save, retrieve & print document
 - e. Upload document into specified LMS (Access/Moodle)
4. Microsoft Excel
 - a. Create a spreadsheet
 - b. Insert a formula
 - c. Insert a chart from spreadsheet data
 - d. Format cells to represent correct data type (currency, date, percent, etc.)
 - e. Save, retrieve & print document
5. Microsoft PowerPoint
 - a. Create a PowerPoint
 - b. Apply background design
 - c. Insert an image
 - d. Create notes for each slide
 - e. Save, retrieve & print a 6-slides/page handout
6. The ability to browse the Web including downloading & installing common programs
7. The ability to access certain Web pages
8. The ability to print and submit a hardcopy assignment
9. A laptop for in-class assignments/activities.

Important information is relayed via your WPU e-mail account. By signing that you have read the Guidebook and will follow all policy and procedures, you are confirming your responsibility for checking your WPU e-mail every day.

Cell Phone/Electronics Policy

See the University Student Guidebook for the entire policy.

- Turn cellular phone ringer off or set to “silent” during class sessions or meetings and in designated quiet areas of the library; texting or talking on the phone is prohibited during class.
- If you expect an emergency call during class, notify the instructor before class begins. Instructors may use their own discretion on whether to allow students to accept such calls.
- Appropriate Classroom Laptop Use- Please refrain from instant messaging, e-mailing, surfing the Internet, checking Facebook or other social media sites, playing games, writing papers, doing homework, etc. during class time. Acceptable uses include taking notes, following along with the instructor on PowerPoint, with demonstrations, and other whole class activities, as well as working on assigned in-class activities, projects, and discussions that require laptop use.

Social Media Policy

Social networking sites (i.e., Facebook, Myspace, Twitter. Etc.) are useful avenues for student communication and study groups, and can be used to access the latest health-related news. We support the responsible use of these resources and expect all users to demonstrate the same level of ethical and professional conduct, as is required in face-to-face or written communications. Additionally, the WPU Nursing Program adheres to the NCSBN policies. See <https://www.ncsbn.org/347.htm>.

All Nursing Students are prohibited from the following conduct in any form of Social Media/Social Networking:

- Postings that violate or infringe upon the rights of any third party, including copyright, trademark, privacy, publicity or other personal or proprietary rights
- Postings that contain libelous, defamatory, or otherwise unlawful material
- Postings discussing confidential patient information or any information or photographs concerning patients and/or their families
- Postings discussing information about university employees that is disparaging in nature
- Discriminatory or harassing posting discussions concerning another student
- Posting pictures of employees, students, or anyone associated with the University without that person’s permission
- Accessing social media/social networking during classroom, clinical or preceptorship hours.

Failure to comply with this Social Media/Social Networking Policy may result in disciplinary action, up to and including dismissal from the Nursing Program.

No Smoking Policy

In accordance with the Iowa Smoke Free Air Act, smoking is strictly prohibited throughout campus, including all buildings and grounds. Smoking inside vehicles (including personal vehicles) on university property is also prohibited. Other tobacco use is prohibited on campus except inside individual rooms within residence halls.

Disabilities

A student who plans to request accommodations must first disclose their disability to the Coordinator of the Office of Services for Students with Disabilities (OSSD). See University catalog or WPU Student Guidebook.

Safety Policies

1. Students are responsible for their own personal safety when making home visits or in community settings. If you are concerned about your safety, you need to advise your clinical faculty immediately.
2. If you feel unsafe at any time, maintain your personal safety, and contact the instructor immediately.
3. The student is responsible for his/her own transportation. The university is not liable for travel to and from clinical/preceptor sites.
 - No client is to be transported in student vehicles.
 - Exercise safe driving practice: wear a seat belt, lock your car doors, lock your purse in the trunk, and do not drive during unsafe driving conditions. Ensure your car is fueled and maintained. Carry a map of the area with you during clinical visits.
4. WPU Campus Security 641 673-1170

Nursing Student Unethical Behavior – code of ethics

Unethical behavior, e.g., harassment, plagiarism, cheating, lying, stealing, evidence of substance abuse, etc., may result in immediate dismissal from the nursing program. **See University Student Code of Conduct.** In addition, BSN students are expected to comply with the ANA's Code of Ethics for Nurses available at <https://www.nursingworld.org/coe-view-only>.
Student Civility

1. According to the American Nurses Association, incivility may be exhibited through behaviors such as rudeness, condescension, passive aggressiveness, bullying, psychological abuse, or deliberate undermining of activities. These types of incivility may lead to a non-supportive organizational climate in which students feel pressured by peers to look the other way, and thus fail to support the person experiencing such incivility.
2. Students are expected to conduct themselves ethically, honestly, and with integrity. This requires the demonstration of mutual respect and civility in the academic and clinical environments.

See Addendum J for Student Civility Contract.

CLASSROOM EXPECTATIONS

Attendance & Absenteeism

1. Student engagement and active participation in the learning process is critical to quality instruction. In order to be successful, attendance is expected for all class and clinical sessions. Attendance is documented by instructors at each class meeting. For online courses, no activity for a period of a week is considered an absence. Students are allowed one excused absence.
2. Students are expected to take primary responsibility for making up missed assignments in a timely manner, according to the course syllabus.
3. All assignments are to be completed and turned in at the start of class. Exceptions may be considered in special circumstances (emergencies). Students are accountable for contacting instructors when special circumstances arise before the start of class. Assignments not turned in due to absence may be subject to a reduction in grade.
4. Students with more than one absence will meet with the course instructor, and/or the Director of the Division of Nursing to discuss how to meet the course objectives. The student will receive a written warning and/or Accountability Agreement.

Classroom Etiquette

1. Students should arrive promptly to class, so there is no disruption to the class by a late arrival. Students are expected to stay until the class's completion unless arrangements were made before the start of class with the instructor.
2. Unnecessary visiting, side conversations, and casual "chatting" between classmates during a class session is impolite and disruptive and will not be tolerated by instructor. Questions are encouraged; however, students should wait to be recognized by the faculty. Responses to a faculty or student answer should be polite and appropriate.
3. Students are expected to be prepared for class and do the required reading and assignments before each class session. All class prep should be completed independently unless otherwise instructed. Note-taking is expected and encouraged. Taking notes is an active, participating learning strategy that enhances one's potential for success.
4. The Division of Nursing understands that circumstances may occur that impose upon a student's ability to complete course assignments at the designated times. It is the students' responsibility to inform the course instructor if there are any problems in meeting course assignments, exam schedules, or other deadlines.
5. Students should use laptops or other note-taking devices only for course-related activities.
6. No cell phones, earbuds, or texting devices should ever be heard or used in the classroom or clinical area. The device should be turned off (not on vibrate mode). Students may be

asked to surrender all electronic devices, including smartwatches, before exams. Should a student be in a situation where an emergency communication is pending, the communication should be brought to the attention of the faculty member or appropriate staff member before the beginning of class.

7. Sleeping in class will not be tolerated. The first offense will be a verbal warning. Repeated offenses may result in the student being removed from the classroom, receiving a written warning and/or Accountability Agreement.
8. No children or pets are allowed in the classroom unless their presence is directly related to class content and specific permission has been obtained from the course instructor in advance.
9. No food or drink will be allowed during testing. Food and drink in the classroom should be minimal and should not be disruptive to others in smell or sound. Be considerate of others if chewing gum.

Professional Communication

1. All students must have a William Penn University email address and all course communication that occurs via email will be sent to that address. Students should check their William Penn email and Moodle site daily for announcements and emails.
2. A phone mailbox is expected to be active and checked by each student, faculty, and staff member.
3. When communicating by email or voice mail, the following rules of etiquette are expected to be followed by each person communicating.
 - a. Students should sound friendly yet professional; avoid sounding angry or demanding.
 - b. Reply as soon as possible. Within 24 hours is ideal (longer on weekends). A prompt reply to fosters communication for both the receiver and the sender.
 - c. Remember that faculty may not be available if they are in clinical and off campus. A student should send the message again to the instructor if they did not receive a return message. Always request a return message.
 - d. Always reference the sender's original message in the reply.
 - e. Develop a strong vocabulary and proper grammar skills. Before sending an email, read it over to be sure good grammar and spelling are being used while getting the point across. Proofread for context and tone; make sure the emotions will be correctly received.

- f. Be as brief but detailed as possible. People want information, but they do not want to be bogged down with pages and pages of text.
- g. Always include additional contact information such as phone, fax and/or cell numbers. Be very clear when leaving a return phone number via voicemail. It may be helpful to repeat the message and a student should include their name at the end of the message.
- h. Consider the size and content of file attachments, particularly photo file.

Examination Policy

- 1. Examinations are utilized throughout the nursing curriculum to facilitate the formative and summative evaluation of student learning and foster preparedness for licensure examination following graduation. The following guidelines reflect how examinations are administered, results are disclosed, and students review their accomplishments. Within the context of the classroom, or examinations administered in the Student Success Center:
 - a. Seating for an exam may be arranged by the faculty proctor.
 - b. Students must bring all food and drink, books, purses, ear buds, watches, and backpacks to the front of the room before starting the exam. All hats, caps, ear electronics, watches, or wrist electronics are not to be worn during the exam.
 - c. The university or course instructor will not provide calculators.
 - d. Students must bring all electronic devices (including smart watches) to the front of the room. Devices must be turned off (not on vibrate) throughout the exam.
 - e. Students cannot leave the room during the exam and then return to continue the exam unless approved by the proctor.
 - f. Students may not ask questions of the faculty proctor, except those related to typographical error.
 - g. Students are responsible for checking their answer sheets for accuracy before submitting them to the proctor. In the case of exams utilizing scanning answer sheets, test booklets can be written on, but they will not be used by faculty to verify responses.

- If the proctor is suspicious that cheating is occurring, he/she will pick up the test, and a score of 0 will be received for that exam. **Refer to the University Student Guidebook: Academic Dishonesty Policy.**
 - a. Upon completing an exam, the faculty proctor will direct the students when they may leave the classroom. If students are instructed to exit the room, they should be respectful and remain quiet. Access to personal belongings within the classroom may or may not be allowed during this time, at the proctor's discretion.
 - b. No discussion of test content should occur until all students have taken the test, and scores are posted. Any sharing of information related to the exam with a student who has not yet tested is grounds for a zero grade for all students involved.
 - c. Make-up exams will be given when the student notifies the course instructor before the scheduled exam period of his/her inability to take the exam due to a personal or family illness/emergency. The exam must be taken as quickly as possible at the instructor's discretion for scheduling (preferably within 24 hours)
 - i. A student who misses an exam without notifying faculty before the scheduled exam period will receive a written warning and/or Accountability Agreement and be allowed to make-up the exam with a 50% deduction in the student's exam score. The exam must be taken as quickly as possible at the instructor's discretion for scheduling (preferably within 24 hours).
 - ii. A student who arrives late for an exam without notifying faculty before the scheduled exam period will be allowed only the amount of time remaining in the scheduled exam period to finish the exam, or the student may opt to take a make-up exam with a 50% deduction in the student's exam score.
 - m. Students are encouraged to review their unit examinations. Faculty believe that reviewing exams provides students with opportunities to reinforce learning, identify content areas in need of further study, seek clarification on items missed, and improve study and test-taking skills. The exam review will take place with a designated person at a selected location and will be course specific.
 - i. Review of exam will be determined by the faculty.
 - ii. Unit exams are available for review for two-weeks after all students within the class have completed their examination.
 - iii. Exams are always reviewed with the designated person in attendance.
 - iv. Note-taking is NOT permitted while reviewing exams. Students must place all personal items, backpacks, writing utensils, etc., in a designated area away from the review area.

- v. Tests and answer sheets will be returned immediately following the review and cannot be taken from the review room.
- vi. Faculty in some courses may require exam review for students who score below a certain percentage. See course syllabi for individual course policies.
- n. Tests administered by the Student Success Center are scheduled to overlap with the actual administration of the exam for the rest of the class.

Policy of Formal papers

1. All formal papers will be prepared using the Division of Nursing's Writing Assignment Rubric (see Addendum) and the latest edition of the Publication Manual of the American Psychological Association (APA). The use of these writing resources is expected. Consequences of failing to achieve the writing competency expectations will be:
 - a. Student's papers earning less than 75% must rewrite their papers. A new due date will be issued by the course instructors but will not exceed one (1) week.
 - b. Students must rewrite their paper to meet specifications of the satisfactory column in the rubric to earn 75% of the points of the initial value of the paper. If the rewritten work does not meet all the specifications of the satisfactory column on the rubric, the student will earn the grade from the initial submission.
 - c. No more than 75% can be earned on any paper requiring resubmission and only one submission will be accepted.
 - d. Papers achieving 75% or more may not be rewritten.
 - e. Papers must be submitted by the due date. Extensions will be given only in extreme circumstances. 10% of the total points per day can be deducted for papers submitted late without proper extension. These points cannot be earned if the paper is rewritten. If this deduction causes the overall score to fall below 75%, the paper may not be rewritten.

Failed Nursing Courses

Students may be dismissed from a course for breach of ethical responsibilities. A student dismissed for such a violation will not be allowed to continue in any clinical nursing course that semester. (For example: HIPAA violations, academic dishonesty, a pattern of late or incomplete assignments, misleading and/or misstating facts or events). A student dismissed under such circumstances will meet with the assistant director and division director to discuss individual implications for the nursing program's current course schedule and continuation.

All failed (C-, D or F grade) courses with an NURS number must be repeated on-campus (WPU) in order to earn credit for that course. A failed nursing course may not be repeated by correspondence or by credit by examination.

A nursing student can fail **two nursing courses** during their time at William Penn University or the same nursing course twice before they are dismissed from the nursing program.

Leave of Absence

A leave of absence may be granted for reason of illness, or some other serious reasons determined.

The case will be evaluated on an INDIVIDUAL BASIS by the Division Director and the nursing faculty. If a student withdraws from the program for any reason, it is his or her responsibility to notify the Division Director of his or her intent to reapply for admission into the Nursing program. **See Academic Progression Policy. See Withdrawal Policy and Re-Admission Policy.**

Minimum Standards for Progression

Students must meet criteria at the end of each semester in order to continue enrollment in nursing courses. Exceptions may be considered by the Division of Nursing and communicated to individual students.

Independent Study

Students in the Division of Nursing may take an Independent Study course in nursing for elective credit. The regulations and application processes for an Independent Study course is outlined in the University Catalog.

Extended absence from the University Policy

Students who leave the University for one (1) year (Fall and Spring term) or more and apply for re-entry will fall under the catalog policies at the time of re-entry. These students must submit a petition to the provost or Vice President for Academic Affairs if they wish to request a different catalog year. Students are held to all other University policies (academic or otherwise) in the current catalog regardless of their catalog year.

A leave of absence may be granted to a nursing student for up to one semester. The process is as follows:

- The student contacts the nursing advisor to discuss the leave of absence request.
- The student writes a letter stating the time frame for the leave of absence. (A personal interview may be requested.)
- If the leave is approved by the Division of Nursing, the student must contact Registrar's Office to start the withdrawal process.
- The Vice President for Academic Affairs will be notified and document the student's leave.
- When the student plans to return, the student must notify the Division of Nursing by letter (Maybe an email).
- If the student is away for one or more semesters, the student will need to contact Admissions to reapply to William Penn University.
- The student will register for nursing courses at the end of the registration period and be admitted to class pending space available.

Program Completion Time Limit:

Nursing students who choose to withdraw from the Nursing Program need to be aware that the nursing courses are only good for five years and that the courses are offered in sequence. For withdrawal from the university, **see the university catalog. See also Nursing Readmission Policy.**

Americans with Disabilities Act

The Americans with Disabilities Act (ADA), 1990, was promulgated by the United States Congress to prohibit discrimination against qualified individuals with disabilities. Disability is defined in the Act as a person with a) physical or mental impairment that substantially limits one or more of the major life activities of such individuals; b) a record of such impairment; or c) being regarded as having such an impairment. A “qualified individual with a disability” is one who, with or without reasonable accommodation or modification, meets the essential eligibility requirements for participation in the program. **Also see online WPU Student Guidebook, “Services for Students with Disabilities”.**

Examples of disabilities likely to be covered by ADA:

- Physical Impairments: Orthopedic, visual, speech, and hearing impairments: cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, HIV (symptomatic or asymptomatic), tuberculosis, addictions.
- Mental Impairments: Mental handicaps, organic brain syndrome, psychiatric disorders, learning disabilities.
- Examples of “record of such impairment”: history of psychiatric illness; addiction to drugs or alcohol; physical illness; erroneously diagnosed with a condition.
- Examples of “regarded” as having a disability: deformity not affecting function, i.e., facial, trunk, mild diabetes mellitus, controlled by medication.

Special Accommodations:

Any student needing classroom or exam accommodations due to the impact of a disability or medical condition must register for services with the Office of the Vice President for Academic Affairs. The Coordinator of Services for Students with Disabilities (CSSD) assists qualified students with disabilities at William Penn University. The Vice President for Academic Affairs is a personal and confidential contact for any student wishing to discuss policies and procedures, as well as academic and personal concerns. The vice president provides information, accommodation requests, referrals, and support.

The office will verify the need for accommodations and develop a plan to be distributed to appropriate professors. Students who use accommodations should also contact the professor privately and in a timely manner to discuss the most effective methods to implement the approved accommodations.

Military Student Call to Service and Readmission Policy

In accordance with the **Federal Student Aid Guidebook**, members of the U.S. military who are called into service during their education can return to their plan of study within three years after completing their service period. To accommodate re-entry into the nursing major, the student must provide written notice to the Director of the Division of Nursing at least one semester before his/her expected date of return. The student must also contact the Admissions Office to reapply.

Returning military students who satisfy the nursing major's readmission criteria will be readmitted with the same credit hours and with the same academic standing. A student that does not submit a written request for readmission or return by the predicted date will not automatically be denied eligibility for readmission but must follow William Penn University and the Division of Nursing readmission protocols at the time of their return.

TESTING

ATI Testing

All nursing students will be required to take standardized examinations throughout their program of study. These standardized exams are used as benchmarks for assisting students in determining their progress compared with a national norm. There are fees associated with some of these examinations. The use of standardized examination benchmarks assists students in preparation for the RN licensing examination. Scores on these exams may account for up to 10% of the course grade.

ATI Implementation Policy for Testing, Remediation, and Program Evaluation

What is ATI?

- ATI stands for Assessment Technologies Institute. ATI offers a wide variety of NCLEX® preparation assessments during nursing school. These assessments not only prepare students for the NCLEX, but they also help them gain critical thinking skills and a comprehensive nursing knowledge base needed to be a great nurse.
- William Penn University Division of Nursing uses ATI as a comprehensive program from the second semester through the final semester.
- Used as a comprehensive program, ATI supports course content mastery and preparation for NCLEX-RN.
- The ATI program may include study guides/books, skills modules, tutorials and online practice and proctored testing to cover the major content areas in nursing.

ATI Testing for Competence in Nursing Courses:

Students in the William Penn Nursing Program will be required to take ATI competency tests pertaining to each of the major courses/content areas throughout the curriculum as specified. The ATI test or tests will be given toward the end of most nursing courses. Testing will take place on the William Penn Nursing Campus, will be proctored, and the testing schedule will be provided early in the course. Students are required to complete Proctored Assessments as part of the course requirements.

Scoring for the required Proctored Assessment Exam ‘Proficiencies Level’ is as follow:

What is a Proficiency Level?

The student must attain specific levels of achievement for each required proctored exam. Our goal in the William Penn University Division of Nursing is for the student to reach proficiency level 2 or 3. Listed below is a description of ‘Proficiency Level Definitions’ as specified by ATI and adopted by the William Penn University Division of Nursing.

ATI: RN CONTENT MASTERY SERIES (2019)-<http://sitefinity.atitesting.com/docs/default-source/assessments/rn-cms-2019/rn-2019-cms-proctored-proficiency-levels.pdf?sfvrsn=2>

For students reaching Proficiency Level 3: Proficiency Level 3 indicates the student is expected to **exceed NCLEX-RN** in this content area. The student should demonstrate a high level of knowledge in this content area that confidently supports academic readiness for subsequent curricular content. Students are encouraged to engage in continuous focused review to maintain and improve their knowledge of this content. 100%

For students reaching Proficiency Level 2: Proficiency Level 2 indicates the student is expected to readily **meet NCLEX- RN standards** in the selected content area. The student should demonstrate a level of knowledge in this content area that more than adequately supports academic readiness for subsequent curricular content. Students are encouraged to engage in continuous focused review in order to improve their knowledge of this content. 80%

For students reaching Proficiency Level 1: Proficiency Level 1 indicates a student is expected to just meet NCLEX-RN standards in this content area. The student should demonstrate the minimum level of knowledge in this content area required to support academic readiness for subsequent curricular content. **Student encouraged to remediate.** 60%

For students not reaching Proficiency level 1: Below Proficiency Level 1 indicates the student needs a thorough review of this content area. Students are highly encouraged to develop and complete an intense plan for focused review. **Students at this level remediate according to their instructor’s directions.** 0%

Required Practice Assessments

Preparation for the required ‘Proctored Assessment’ is essential to student success. The following must be completed, before taking the Proctored ATI Examination. Proof of completion must be provided to the instructor before taking the Proctored ATI Examination.

1. Attain 80% on Practice Assessment at **least two weeks** before the Proctored Exam. Practice assessments may only be taken once every twenty-four (24) hours. Time begins upon completion of a practice assessment. A student should print out a copy of their results to keep and another copy should be provided to the course instructor before taking the proctored examination. A student may be required to remediate.

What is Remediation?

FOCUSED REVIEWS/ACTIVE LEARNING/REMEDIATION

Active Learning/Remediation is a process of reviewing content in an area that was not learned or not fully understood (as determined on an ATI assessment). Remediation tools are intended to help the student review vital information to succeed in courses and on the NCLEX®. The student’s individual assessment report will contain a listing of the *Topics to Review*. It’s highly recommended to remediate using the *Focused Review* after completion of any practice/proctored tests, which contains links to ATI eBooks, media clips, and active learning templates. The instructor has online access to detailed information about the timing and duration of time spent in assessments, focused reviews, and tutorials by each student. Students can provide documentation that required ATI work was completed using the “My Transcript” feature under “My Results” of the ATI Student Home Page or by submitting written Remediation Templates as required.

Comprehensive Predictor Exam

All nursing students enrolled in NURS 413 Transitions to Nursing Practice will take ATI comprehensive predictor exams. Scores on this exam will be used to calculate final course grades in NURS 413 Transition to Nursing Practice and will provide the basis for individualized learning contracts to prepare for NCLEX-RN.

NCLEX-RN Preparation

The nursing faculty requires all students to participate in ATI (Assessment Technology Institute). ATI is a comprehensive online assessment and review program that is designed to provide nursing students with a variety of tools that will assist throughout their nursing program in a variety of ways. Participation in the ATI program will allow the student to gain experience in taking computerized nursing exams similar to the National Council Licensure Examination (NCLEX), increase confidence in nursing knowledge base and comprehension, identify strengths

and weaknesses, and to develop plans for remediation ultimately enhancing success in the nursing program and the NCLEX upon graduation. Individual subject tests are administered at appropriate intervals throughout the nursing curriculum. Examples of exams utilized are the following: Critical Thinking, Fundamentals of Nursing, Physical Assessment/Wellness, Medical/Surgical, Obstetrics/ Gynecology/Growth and Development, Pharmacology, Pediatrics, Psychosocial Nursing and Pathophysiology.

Recommendations for Students

Guidelines for Application for Students (This is determined by the state which the student will be testing.)

Overview of how to apply for the NCLEX in Iowa:

Step 1:

Apply for Licensure. A student will be doing this with IBON, the Iowa State Board of Nursing.

Step 2:

Register and pay with Pearson Vue (they are the testing center).

Step 3:

Complete the items within the Examination Packet.

Step 4:

A student will receive their Authorization to Test and Schedule for their NCLEX exam.

Step 5:

A student must pass the test and maintain their license!

Note: The whole process will cost approximately \$350

by administering Covid
vaccines

Financial Aid

The purpose of the Financial Aid Office, located in the Penn Activity Center, room 204, is to assist the student in financial planning for college. In doing this, William Penn University attempts to make it financially possible for fully accepted students in a degree-seeking program at William Penn University to experience a college education's advantages. Generous gifts by alumni, trustees, and friends of the university, in addition to state and federal student assistance programs, make this possible. The primary criterion for determining the amount of assistance a student is eligible to receive is the student's financial need. The type or kind of assistance available is related to the financial need, enrollment status (determined at census day), housing plans, scholastic achievement, music/theater talent, and the student's athletic ability. For more details, visit our website at <https://www.wmpenn.edu/admissions-aid/financial-aid>

Miscellaneous Costs

- CastleBranch
- Uniform(s)
- Clinical skills bag
- Stethoscope
- Watch with a second hand
- Nursing name badge
- Physical Exam with immunizations if needed
- ATI Fees
- Student organization membership
- Lab Fees
- TEAs Test
- Nursing Pin

CLINICAL AND SIMULATION INFORMATION

Clinical and Simulation Learning

Simulation, laboratory, and clinical experiences are all considered part of the nursing program's clinical requirement. Consideration for participation, preparation, and evaluation for "clinical" experiences will be related to all these types of learning activities.

Arrangements for Clinical Experiences

Clinical experiences are arranged under the course and clinical coordinator's direction in collaboration with the Division of Nursing Director. Clinical agencies expect all clinical site requests to be submitted by the University and not by individual students. Students are expected to communicate clinical learning needs and preferences to the course and clinical coordinator. Students should not contact clinical agencies to arrange additional clinical learning opportunities.

Previous Licensure

Clinical participation is not allowed by persons who have been denied licensure by the Iowa Board of Nursing or whose license is currently suspended, surrendered, or revoked in any country or US jurisdiction due to disciplinary action.

Nursing Student Health Summary Information

The Division of Nursing is required to provide documentation to clinical agencies in order to promote safety. Documentation of health information, insurance, and CPR certification is a shared responsibility of the student and Division of Nursing. Failure of the student to submit documentation as directed may result in removal from clinical nursing courses. **See Moodle for instructions related to health information and submission to CastleBranch.**

All students must complete/update the Student Emergency Contact form each semester. See Addendum A.

CastleBranch

Upon Admission to the Nursing Program and Prior to the First Day of Class:

CastleBranch, Health Records, and Immunization Requirements

All students in the WPU Division of Nursing who will be completing clinical experiences are required to maintain current clinical credentialing requirements through CastleBranch for the duration of their program.

Students will create an account (MyCB) to maintain program and medical documents and request background checks and drug screenings as required. Once a student creates their account, they will be able to upload all documentation required for their program. A student will have access to their background check and drug test results once they are completed.

Failure to maintain compliance with these requirements may result in dismissal from clinical experiences and the inability to progress within the program.

Creating and Accessing MyCB Account

Instructions to set up a MyCB account can be found in Moodle and **see Addendum X**. There is an initial purchase code for each program that includes an initial background check and drug screening as well as the document tracker. Once an account has been set up students can log into their profile at mycb.castlebranch.com. Additional screenings can be purchased through this profile using the codes provided in the program Homeplace.

Dates and Deadlines

Students are required to be in compliance with their program documentation by the deadline provided in their welcome letter. Generally, the due dates are those shown below but variations may occur. It is the student's obligation to maintain compliance with any requirements that renew during their program (i.e., annual TB testing and OSHA/HIPAA requirements).

- Fall Semester Start **August 1st**
- Spring Semester Start **December 1st**

Confidentiality

- a. It is the nurses' legal and ethical obligation to keep information about clients and their illnesses and treatment confidential. The legal and ethical obligation means that nurses never share information with anyone who is not involved with the specific nurse-client relationship. The clients must trust a nurse and know that information will not be revealed inappropriately but will be used to communicate essential information to facilitate their health care. Nursing students and nurses do not gossip about clients with their friends or others not involved in the client's care. While students may share non-identifiable information for the course and learning purposes while in class or clinical settings, no patient information of any kind should be shared outside confidential settings in the practicum site or classroom.
- b. Nursing students should not share information about facility or facility staff via email, social networking sites, or other means outside the learning environment. The instructor may direct students to share select de-identified patient information via email for course preparation or learning purposes. Sharing on Moodle is permissible, as directed by the instructor because Moodle access is password protected. Pictures of patients must never be taken, whether a patient gives permission or not. Absolutely **NO** reference to a patient, even if de-identified, should ever be shared electronically via email or on social networking sites. In addition, the National Council of State Boards of Nursing's (NCSBN) delineates expectations in The Nurse's Guide to the Use of social media. The document is available at https://www.ncsbn.org/NCSBN_SocialMedia.pdf.
- c. A breach of confidentiality is considered a severe offense and may lead to dismissal from a clinical area, course, or the nursing program. Students are expected to abide by federal law's health information privacy requirements, the Health Insurance Portability and Accountability Act (HIPAA).

Professional Appearance – Uniform Code 4-year Pre-Licensure program

Students' dress/grooming must be appropriate to the professional setting and comply with the clinical facility's published dress code policies. Decisions regarding dress and grooming will be at the discretion of the clinical instructor. The Division of Nursing will apply the following student guidelines:

- a. **Student ID badge:** This will be purchased through Student Services in the Union and must always be worn and visible when in a clinical facility. A list of nursing students that will be attending clinicals/preceptors will be sent from the Division of Nursing to Student Services each semester. If a student arrives at a clinical site without the proper identification badge, the student cannot participate in the clinical and will be sent home to retrieve it. Students are responsible to keep their ID badge until they graduate. If an ID badge is lost, the student is responsible for the replacement badge. Student Services will redo the badge but the student will be responsible for the cost of a replacement badge.
- b. **The student uniform:** Once accepted into the nursing program the uniform will consist of a royal blue scrub top with the William Penn University logo, and royal blue scrub pants.
- c. Students in the NURS 201 CNA course will receive a white top with the William Penn University logo, and royal blue scrub pants.

Students will receive their first set of scrubs from the university through the Division of Nursing. Articles of clothing should fit well, with a modest, professional look, allowing for appropriate body movement. A student may wear a plain white long-sleeved undershirt, if allowed by the clinical agency. Appropriate, discrete undergarments are required. To prevent the spread of microbes, students must launder the uniform after every clinical experience. Clinical uniforms should be neat, clean, wrinkle free and in good repair. There should be no holes, wrinkles, dirt, or stains on clinical clothing. Pants should be hemmed at an appropriate length, so they do not drag on the ground.

- d. **Shoes:** must be closed-toe, closed-back shoes in good, clean condition. Shoes should reflect the professional nature of the role and be appropriate for the clinical setting. No Crocs or Clogs will be allowed.
- e. **Jewelry:** Engagement rings and wedding bands only may be worn in most clinical areas. Two small pairs of pierced earrings in the ear lobes, non-dangling earrings are acceptable. No other visible body piercing will be permitted, including tongue piercing. No additional jewelry such as necklaces, bracelets, or rings may be worn. A wristwatch with a second hand may be worn depending on clinical agency policy.
- f. **Hair:** should be neat and clean. For personal and patient safety, long hair should be pulled back away from the face and secured so it cannot be grabbed by patients and does not fall onto patients or interfere with the work area. A plain black or navy

- headband is permitted to keep hair back. Unusual hair coloring is not permitted. Beards and mustaches should be neatly trimmed.
- g. **Nails:** should be clean, short, and without colored polish. No artificial nails are allowed, as they can harbor bacteria.
 - h. **Tattoos:** Small, individual, visible tattoos that are not offensive are allowed in many clinical settings. Offensive tattoos may include, but are not limited to, profane or derogatory words or phrases, images of violence or bloodshed, naked body parts, figures with cleavage, and satanic or persecutory images. Some clinical institutions may have their own policies banning visible tattoos, superseding the William Penn University policy. Students with multiple, large, or a sleeve of tattoos on their arm(s) will be required to wear a long-sleeved shirt. Students with multiple neck tattoos will be required to wear a turtleneck shirt.
 - i. **The use of cosmetics:** should be conservative. Students should not use perfumes, colognes, and fragranced lotions, or after-shave should not be used. Students should smell clean; body odor is unacceptable, including the smell of smoke or pets. In addition, the clinical uniform should be free of pet hair to prevent possible patient allergic reactions.
 - j. **The student uniform:** should be worn at all times during clinical and lab, even when patient care is not occurring, such as during clinical pre-assessment. Exceptions may be made for specific clinical experiences, such as mental or community health, based on facility policy. Students do not need to wear clinical uniforms for open lab practice sessions; however, closed toe shoes are always required in the lab.
 - k. **Unacceptable and unprofessional attire:** will result in the student being sent home. Failure to adhere to the above-stated uniform regulations will result in dismissal from the clinical experience for the day. Repeated offenses will result in written warning and/or **Accountability Agreement**.
 - l. **Medical or other exceptions:** If a student has any medical, religious, or other exceptions to the uniform code, these exceptions must be discussed with the course instructor at the beginning of the course.

Professional Appearance – Uniform Code RN-BSN program

1. Students' dress/grooming must be appropriate to the professional setting and comply with the clinical/preceptor facility's published dress code policies. Decisions regarding dress and grooming will be at the discretion of the instructor. The Division of Nursing will apply the following student guidelines:
 - a. **Student ID badge:** This will be taken through Student Services in the Union and must always be worn and visible when in a preceptor facility. A list of nursing students that will be attending clinicals/preceptors will be sent from the Division of Nursing to Student Services each semester. If a student arrives at a clinical/preceptor site without the proper identification badge, the student cannot participate in the clinical/preceptor and will be sent home to retrieve it. Students are responsible to keep their ID badge until they graduate. If an ID badge is lost, the student is responsible for notifying the Division of Nursing, Student Services, and the student will be responsible for the cost of a replacement badge.
 - b. **The student uniform:** will consist of a royal blue lab jacket with William Penn University logo. The student may purchase theses through the Division of Nursing prior to the beginning of the semester. Articles of clothing should fit well, yielding a modest, professional look. The name tag needs to be worn so it can be easily seen. Business casual clothes demonstrating good grooming and professionalism shall be worn, along with the WPU lab jacket. No clothing that is too casual or too dressy shall be considered appropriate (e.g., **no blue jeans or denim**, sweat suites, party dresses, halter tops, see-through fabrics, mini-skirts, shorts, t-shirts, etc.)
 - c. **Accessories** to the uniform will include:
 - i. **Shoes:** must be closed-toe, closed-back shoes in good, clean condition. Shoes should reflect the professional nature of the role and be appropriate for the clinical/preceptor setting. No Crocs or Clogs will be allowed.
 - ii. **Jewelry:** Engagement rings and wedding bands only may be worn in most clinical/preceptor areas. Two small pairs of pierced earrings in the ear lobes, non-dangling earrings are acceptable. No other visible body piercing will be permitted, including tongue piercing. No additional jewelry such as necklaces, bracelets, or rings may be worn. A wristwatch with a second hand may be worn depending on clinical agency policy.
 - d. **Student attire:** Students must wear business casual attire and the WPU lab jacket while in the Clinical or Preceptorship areas. Lab jackets must be clean and pressed with buttons, snaps, hems, and seams intact. Professional appearance is always required in the clinical or preceptorship facilities. Students who come to clinical or preceptorship facilities with inappropriate attire/lack of cleanliness/or offensive odors such as alcohol or tobacco will be sent away from the clinical or preceptorship area.

- e. **Body:** The length and style of hair may vary with the individual student; however, while on clinical or preceptorship experience and laboratory areas, it must always be styled so it is above the collar in order to maintain good asepsis and patient safety. Hair should be of natural color, neat and clean always. Male facial hair should be short and neatly trimmed. Fingernails must be short, neatly trimmed, and clean to maintain good asepsis and patient safety. No nail polish is allowed. Makeup is allowed, but in moderation. There should be no gum chewing while on clinical or preceptorship experience. No perfumes, colognes, or strong after-shave lotions are to be worn. In addition, students should not smell of smoke or anything that may be offensive to peers, staff, or clients.
- i. **Hair:** should be neat and clean. For personal and patient safety, long hair should be pulled back away from the face and secured so it cannot be grabbed by patients and does not fall onto patients or interfere with the work area. A plain black or navy headband is permitted to keep hair back. Unusual hair coloring is not permitted.
 - ii. **Nails:** should be clean, short, and without colored polish. No artificial nails are allowed, as they can harbor bacteria.
 - iii. **Tattoos:** Small, individual, visible tattoos that are not offensive are allowed in many clinical/preceptor settings. Offensive tattoos may include, but are not limited to, profane or derogatory words or phrases, images of violence or bloodshed, naked body parts, figures with cleavage, and satanic or persecutory images. Some clinical/preceptor institutions may have their own policies banning visible tattoos, superseding the William Penn University policy. Students with multiple, large, or a sleeve of tattoos on their arm(s) will be required to wear a long-sleeved shirt. Students with multiple neck tattoos will be required to wear a turtleneck shirt.
 - iv. **The use of cosmetics:** should be conservative. Students should not use perfumes, colognes, and fragranced lotions, or after-shave should not be used. Students should smell clean; body odor is unacceptable, including the smell of smoke or pets. In addition, the clinical/preceptor uniform should be free of pet hair to prevent possible patient allergic reactions.
- f. A lab jacket and name badge **must be worn** when obtaining information on clients prior to Clinical or Preceptorship experiences. Any student without a lab jacket / name badge will be asked to leave by the facility staff.
- g. **Unacceptable and unprofessional attire:** will result in the student being sent home. Failure to adhere to the above-stated uniform regulations will result in dismissal from the clinical/preceptor experience for the day. Repeated offenses will result in written warning and/or **Accountability Agreement**.

- h. **Medical or other exceptions:** If a student has any medical, religious, or other exceptions to the uniform code, these exceptions must be discussed with the course instructor at the beginning of the course.
 - i. **Unacceptable and unprofessional attire:** Unacceptable and unprofessional attire will result in the student being sent home to change. Failure to adhere to the above-stated uniform regulations will result in dismissal from the Clinical or Preceptorship unit for the day. Repeated offenses will result in written warnings and/or Accountability Agreement. Clinical or preceptorship facilities will follow-up with the Nursing Director. Repeated offenses will result in written warnings and/or Accountability Agreement.
2. **Professional Dress:** Professional dress for occasions when the clinical uniform is not required includes:
- a. Below-the-knee length skirts or dresses or ankle-length dark or khaki pants. No jeans, sweatpants, capri pants, or leggings are to be worn.
 - b. Clean, wrinkle free shirt or blouse. No t-shirts, no halter tops, or see-through fabrics.
 - c. Dress shoes appropriate for the setting and must allow the student adequate movement. Shoes should be worn with stockings/hose, and not expose toes or heels.
3. Student enrolled in the **CNA course (NURS 201)** should follow the CNA policy manual.

Equipment

In the clinical setting, students need to have a faculty-approved stethoscope with bell and diaphragm function. Bandage scissors and a penlight are also useful and recommended. Students should plan on carrying a watch with a second hand and a black pen. Students will also be required to have their clinical skills bag for specific laboratory experiences. Nursing students may purchase their clinical skills bags in the University Bookstore.

Preparation for the Clinical Experience

- 1. Students are expected to demonstrate adequate preparation for all clinical, lab, and simulation experiences. Students who are unprepared may be told by the instructor to leave the clinical setting and given a failing grade for that clinical experience and will incur a Written Warning and/or Accountability Agreement.
- 2. Students may be expected to complete pre-assessment activities prior to some clinical experiences. Often, these will take place the day before the clinical experience. Students are expected to plan for these activities when scheduling their other classes, extracurricular activities, and on or off-campus work.

Attendance at Clinical Experiences

1. Attendance and punctuality at required clinical experiences are mandatory. Tardiness or unexcused absences are considered a clinical failure for the day. Students with more than one absence will meet with the clinical or course instructor, course coordinator, and/or Director of the Division of Nursing to discuss how to complete the course objectives. The student will receive a **Written Warning** and/or **Accountability Agreement**.
2. In the event of an emergency and a student cannot attend clinical, the student must contact, by phone or in person, the course faculty before the assigned clinical time to explain the absence. In the event of illness or injury, the instructor reserves the right to request a health care provider's note.
3. Any clinical missed must be made up unless the clinical is canceled due to weather or missed for an excused professional event scheduled by the Division of Nursing.
4. Students involved in campus associated extracurricular activities (e.g., music ensembles, athletics, etc.) for which attendance to lab/clinical will be disrupted (2 occurrences or less) must make arrangements to make up the lab/clinical or attend another scheduled lab/clinical with their instructor, before the absence. A note from the campus coach and/or activity coordinator is required to excuse the student from lab/clinical, and a makeup session will be required. More than two occurrences are not allowed.
5. Clinical accommodations will not be made for students' work schedules.

Transportation

Students will be required to provide their own transportation to and from clinical experiences. Clinical sites may be within a 100-mile radius of the city of Oskaloosa.

Health and Pregnancy

Students are asked to inform the course instructor and clinical instructor of any health conditions that could have potential complications affecting the student's performance, including pregnancy. Early communication with instructors can help minimize risk to the student's or fetus' well-being.

Unsatisfactory Clinical Performance

1. Unsatisfactory clinical performance in any clinical or lab setting is described below but is not all-inclusive and may result in failure of the clinical experience, clinical course, or removal from the program. A student who performs unsatisfactorily will meet with the clinical instructor, course coordinator, and department head to discuss the implications of the failure

in collaboration with the academic advisor. Additionally, patterns of unsatisfactory performance over time may result in removal from the program.

Examples of unsatisfactory clinical performance include:

- a. Unexcused tardiness or absenteeism
- b. Unprofessional behavior (incivility)
- c. Observations of concerning student behavior by agency staff
- d. Unsafe practice
- e. Failure to adhere to the dress code
- f. Being unprepared to care for patients, not being able to discuss the patient's pathophysiology or medications, treatments, procedures, and/or nursing interventions
- g. Breach in confidentiality
- h. Violation of HIPPA (copying information written or verbal included)
- i. Administering medications without approval and/or supervision of instructor or RN
- j. Misleading or misstating facts or events
- k. A pattern of unsatisfactory or late written work
- l. Failure to resubmit written material, if requested by faculty
- m. Failure to accomplish goals set in Skills Remediation Plan (SRP)
- n. Inappropriate or personal cell phone use (including vibrating mode) when with the client or at the clinical agency
- o. Inappropriate internet or intranet usage while at the clinical agency

Skills Remediation Plan (SRP). See Addendum L.

1. If a student is not performing in a satisfactory manner, and safe clinical practice is compromised or potentially compromised, the student will receive a verbal and written feedback. Depending on the nature of the event, the student may also receive a **Written Warning** and/or an **Accountability Agreement**.
2. The student and faculty will meet within 3 business days of the clinical shift and/or simulation (or as soon as schedule permits) to complete and discuss the event and any repercussions. A Skills Remediation Plan (SRP) will be initiated.
3. The faculty member and student will sign the SRP and arrange a schedule for skill remediation with the Nursing Clinical Lab Coordinator.
4. A written description of what needs to be accomplished by the student to pass the clinical will be provided on the SRP, and the date by which the SRP must be completed.
5. The student is responsible for contacting the lab coordinator within two (2) days of signing the SRP to schedule a remediation session. The lab coordinator will facilitate remediation, and the instructor will complete any required evaluation.

6. Remediation may involve instructor-facilitated learning, simulation, completion of video modules, or hands-on practice in the nursing lab.
7. Evaluation of the remediation success in either a clinical rotation or a simulation will occur within two (2) weeks, or the timeline stated on the SRP. If the remediated skill is not improved, the student will fail the clinical, resulting in the course's failure.
8. A student may only be allowed two (2) different SRPs in one semester. An identified remediation topic may only be remediated one (1) time. If a third remediation topic is required or if a student requires additional remediation on a topic that has already been remediated, the student is deemed to have failed the clinical experience.

Clinical Evaluation

Students will be evaluated during clinical and lab experiences using a combination of self-evaluation and faculty evaluation. Clinical evaluation occurs in a formative and summative manner, incorporating student reflection, faculty observation, and performance evaluation.

Skills and Simulation Labs

1. Nursing students will participate in various laboratory and simulation experiences throughout the curriculum. The focus is on the developing competent nursing assessment, interventions, and outcome evaluation to promote patient safety. The lab houses numerous equipment and supplies to engage students in hands-on learning opportunities to prepare for clinical experiences in the healthcare setting. Behavior in the lab is synonymous with behavior in actual patient care settings. At the beginning of each clinical/lab course, students will be asked to sign the **Division of Nursing Clinical Lab Contract** see **Addendum I**. Faculty will discuss the importance of the contract with students each semester.
2. Certain lab activities (not all) involving a simulated clinical experience where the student is participating and/or observing in patient care and reflecting on the experience will be counted as clinical hours.
3. When classes are not meeting in the lab, remediation and/or additional practice of select nursing care is scheduled through the Nursing Clinical Lab Coordinator. Open labs are scheduled as appropriate and available.

Lab Guidelines

1. **Food is not allowed in the lab under any circumstances.** Water may be allowed, only in a closed-container and only at lab tables.
2. Printed material (i.e., paper), ink, and Betadine may stain the manikins, so use of these must be avoided around the manikins or task trainers.
3. When available, latex free items have been ordered; however, some items within the lab including manikins may contain latex. It is the responsibility of the individual student and/or instructor to make it known if they have a latex sensitivity and to take appropriate precautions. Only latex free gloves will be purchased for the laboratory.
4. At the end of lab sessions, all equipment and supplies should be returned to the place they were found, and the lab should be left in order.
5. No laptop, mobile device or personal camera use is allowed in the labs except for during breaks or as directed by lab faculty.
6. Students are expected to demonstrate professional behavior while in the lab, even after scheduled lab activities have been dismissed.
7. Equipment must be signed out by the Nursing Clinical Lab Coordinator, or as delegated.
 - a. Only portable equipment may be checked out. Any equipment problems should be reported at the time of return.
 - b. Equipment belonging to the lab may not be borrowed by other agencies except at the discretion of the Nursing Clinical Lab Coordinator, or as delegated.
 - c. Faculty, staff, and students are accountable for any lost or damaged equipment signed out in their name.

INFECTION CONTROL POLICY AND GUIDELINES

The delivery of nursing care has always been a service associated with risks for the nurse. Many Nursing students enter school without understanding the dangers of transmission or the prevention of infectious diseases. As novice practitioners with limited skills, students may have a greater risk of exposure to infection. With increasing concerns about the spread of infection in health care settings, it becomes imperative that the nursing student be aware of policies and guidelines related to infection control. The Division of Nursing has developed policies and guidelines to help decrease the risk of infection for nursing students and prevent disease transmission in health care settings.

Prevention of Infection

Students will review the Infection Prevention and Control PowerPoint (CastleBranch) presentation annually as part of WPU requirements. Infection prevention and control information presented includes:

1. Healthcare workers risk exposure to infection as a result of contact with blood and body fluids, contaminated equipment, and surfaces.
 - a. Standard precautions; Choice of handwashing agents; Cleaning, disinfecting, and sterilizing.
 - b. Safe disposal of sharps; Different types of isolation precautions, and procedures; Interventions to reduce disease transmission are presented.
2. All nursing students are required to achieve a score of 100% or greater before they will be allowed to participate in clinical learning environments. Documentation of student understanding of this information will be uploaded and maintained in CastleBranch. The student acknowledges instruction, comprehension, and personal responsibility in following all infection control policies in an effort to stop the spread of disease.
3. Instructions for infection prevention and control will be continually reinforced, and clinical supervision will be managed to ensure strict compliance in all clinical and simulation learning experiences.
4. All nursing personnel are professionally and ethically obligated to provide patient care with compassion and respect for human dignity. No nursing personnel may ethically refuse to treat a patient solely because the patient is at risk of spreading, or has, an infectious disease. Students and faculty will identify and follow rules of confidentiality.
5. Pregnant students will not be required to give direct care to patients with severe immunosuppression, including individuals with symptomatic HIV infection. There is a risk of cytomegalovirus from these clients and intrauterine transmission is potentially serious.

Yearly Influenza Immunization

All students must annually submit verification of flu immunization or evidence of medical justification to not receive the immunization by the specified date.

1. The document will be uploaded and maintained in CastleBranch.
2. Students who fail to submit a record of immunization or evidence of medical justification to not receive the immunization, receive a DOC with a “U” on the specified due date and an additional DOC with a “U” each subsequent week.
3. Students who fail to receive or are unable to receive the immunization must wear a mask to clinical assignment when the hospitals announce activation of influenza precautions.
4. Students who fail to receive the immunization or submit evidence to decline the immunization and fail to agree to wear a mask according to the hospital influenza precautions, will not be allowed to attend clinical assignments.

Yearly Tuberculosis Screening

All student enrolled in the nursing program must complete the annual Iowa Department of Public Health TB Screening Form. A student who fails to submit the required documentation will receive a DOC with a “U” on the specified due date and an additional DOC with a “U” each subsequent week and may not attend clinical.

Students with a Positive TB Screening

If a student has a previously documented positive TB screening test or a documented diagnosis of TB or Latent TB Infection (LTBI) the student must submit

1. Provide a copy of the documented positive TB screen test, a diagnosis of TB.
2. Submit a copy of the chest X-ray with results completed in the past year.
3. If a student has received treatment for active TB: they must complete the Iowa Department of Public Health TB Screening Form as instructed by the Division of Nursing.

Tuberculosis Exposure and Reporting

When a known incident of exposure to active TB occurs, the policy of the institution or agency in which the faculty member or student has been giving care will be followed. Records of the exposure and follow-up will be maintained with health records on campus as well as within the agency.

Any case of active TB will be reported to the Mahaska County Public Health Department.

Testing Status

Nursing students, faculty, or staff who believe they may be at risk for HIV, Hepatitis B, or Hepatitis C infection have an obligation to be tested. While the testing decision should be voluntary for the individual, there may be instances in which testing could be required. Education, training, and confidentiality safeguards can be used to encourage those who believe they might be at risk to be tested. Pre and post-test counseling will be available at the testing site.

Students, faculty and staff who know they are infected will be urged to voluntarily inform a designated official in the school who will provide information and referral on health care and counseling and begin a process to access the need for necessary modification/accommodation in clinical education or job functions.

HIV Infected Faculty, Students and Staff

Clinical settings which pose additional risk to the personal health of infected students and faculty should be identified, and such persons should be advised of those risks and urged to consult their health care provider to assess the significance of the risks to their own health.

Any modifications of clinical activity of HIV infected students or faculty should take into account the nature of the clinical activity, the technical expertise of the infected person, the risks posed by HIV carriage, functional disabilities, and the transmissibility of simultaneously carried infectious agents.

Post-Exposure Report and Procedure

If an exposure occurs, faculty, students, and staff should follow the CDC and institution guidelines for occupational exposure. An exposure is defined as:

1. A needle stick or cut caused by a needle or sharp that was actually or potentially contaminated with blood or body fluids.
2. A splash to mucous membranes (e.g., eyes, mouth) with blood or body fluids.
3. Cutaneous contact with prolonged exposure to blood or body fluids – especially when the skin is chapped, abraded, or afflicted with dermatitis.

Emergency Body Fluid Exposure Procedure

If a student experienced a needle stick or sharps injury or were exposed to the blood or other body fluid of a patient during the course of their work, immediately follow these steps: Wash needle sticks and cuts with soap and water, flush splashes to the nose, mouth, or skin with water, irrigate eyes with clean water, saline, or sterile saline. Report the incident to the supervisor (e.g., clinical instructor, preceptor, charge nurse) Immediately seek medical treatment.

Specific post-exposure protocols are available in each hospital and agency in which students will work directly with patients. The specific protocol for the agency would be utilized by all students and faculty who have assignments in that agency. Furthermore, a student or faculty member has an ethical duty to report such an exposure to the faculty member in charge or designated preceptor. Should an infected student expose a patient, he/she is ethically obligated to report this as well. An exposure is also reported to the Division of Nursing Director at WPU.

Criminal Background Check & Abuse Registry

Students admitted to the Division of Nursing must complete a Criminal Background Check through Castle Branch and an Abuse Registry Check with the Iowa Department of Human Services. This information will be obtained for all nursing students.

Procedure:

1. Students will receive & complete the DHS form (during orientation/registration). The Nursing Office Manager will scan & e-mail the form to DHS.
2. Any student found to have a criminal conviction, or a child/adult abuse conviction will be reviewed by the division of nursing. The student will have the opportunity to discuss the information with the Division Chair regarding the impact of this finding on the student's progression in the nursing program.

3. Health care agencies requiring background check information for clinical, or preceptorship experience will be sent the nature and date of the offense. Names of students will not be released to the health care agency. If the agency decides that a student may not have clinical or preceptorship experience within the agency because of the offense, the Division Chair can consult with the nursing faculty about an alternative clinical or preceptorship experience for the student if available.
4. All nursing students must self-report to their nursing advisor if they have acquired a criminal conviction or deferred judgment or have a record of dependent adult and/or child abuse since their initial certified background check. If the Department of Human Services determine that the student cannot complete the clinical education component of the WPU nursing program, the student may be dismissed from the program.

Verification of the Criminal Background and Abuse Registry will be made by the Nursing Office Manager.

MEDICAL REQUIREMENTS

Health physical examination:

The practice of nursing includes physical and mental/cognitive demands. To evaluate the student's ability to meet these demands all nursing students in the William Penn Nursing program must have a physical examination upon admission to the nursing program. The student who has not completed the physical exam will not be allowed to participate in courses with clinical or preceptorship components. (The form is available in the **Addendum F**).

Testing/Screening Immunizations:

Nursing students are required to verify the following immunizations:

Tetanus Diphtheria every 10 years, Mantoux upon admission, seasonal influenza, Chickenpox (Varicella Zoster), Mumps, Measles and Rubella. If there is no history of the disease, a titer or immunization must be obtained. Hepatitis B vaccines or waiver**. (The form is available in the **Addendum C**).

NON-MEDICAL REQUIREMENTS

Requirements Non-Medical

Students admitted to William Penn University Division of Nursing program are expected to possess the capability to complete the entire nursing curriculum. The Division of Nursing is committed to educating students in providing the best possible patient care. Therefore, the curriculum requires proficiency in a variety of abilities. All students must have these abilities to fulfill program and course requirements.

This policy applies to applicants and current students. If a student has a disability and requires special accommodation to meet these requirements, the student must provide the Coordinator of the Office of Services for Students with Disabilities (OSSD) documentation, upon admission to a program of study or as soon as a need is identified.

The functional abilities include but are not limited to:

Physical:

1. Possess sufficient energy and mobility to provide patient care to meet course objectives.
2. Transfer, lift, pull, and perform other demanding physical procedures as required to provide routine and emergency patient care, while ensuring the safety of self, patient, and others.
3. Provide patient care for up to 12 hours; attend clinical or preceptorship experience at assigned times.
4. Utilize sight, hearing, smell, and touch to assess patients at a distance and close to hand; effectively use diagnostic instruments and screening tools as required.
5. Use gross and fine motor skills while providing patient care, consistent with established nursing practice and patient safety.

Cognitive:

1. Elicit and interpret verbal and non-verbal communications.
2. Communicate effectively both verbally and in writing, using appropriate words, grammar, and vocabulary.
3. Make accurate decisions in a timely manner, under stressful and challenging conditions.
4. Utilize analysis, synthesis, critical thinking, and mathematical calculations in provision of patient care.
- 5.

Interpersonal:

1. Interact professionally with individuals, families, and communities of various social, ethnic, and cultural backgrounds.
2. Use social skills to form a therapeutic relationship with individuals, families and communities.
3. Possess compassion, integrity, motivation, and genuine concern for others.
4. Maintain professional behavior and demeanor when faced with challenging situations.

See Addendum for Core Performance Standards.

Cardiopulmonary Resuscitation Certification

Prior to enrollment into any nursing course with a clinical/preceptorship component, the nursing student must have completed the following CPR course:

- American Heart Association: Health Care Provider course (requires renewal every 2 years) Students must maintain current CPR status throughout the nursing curriculum.

Procedure:

1. A copy of the certificate of satisfactory completion must be uploaded to the CastleBranch website.
2. Updates must be uploaded to the CastleBranch website upon renewal.
3. Compliance with this policy is required for progression in the nursing program.

Students with expired certifications will have a hold on course registrations and will not be allowed to continue in enrolled nursing courses.

Mandatory Reporter Training

Students must complete Dependent Adult and Child Abuse Training prior to the designated date. (<https://dhs.iowa.gov/sites/default/files/470-3301.pdf?111120202219>) If the student has already completed the Dependent Adult and Child Abuse training for employment, the certificates of completion need to be submitted to CastleBranch. If the student completed training for only Child Abuse or only Dependent Adult Abuse reporting, the student must complete the training online included in CastleBranch.

HIPAA Education

The federal government has enacted laws dealing with the privacy of patients' health information. This law, known as HIPAA, mandates that all healthcare workers who have access to patient information be educated in the rules of this law. A William Penn nursing student needs to be aware of this law **BEFORE** they can begin any nursing course with a clinical or preceptorship component. Verification of HIPAA education received as a requirement for employment or transfer from a college institution will be accepted. Please sign and provide training date on the Attestation form **see Addendums D and E**, and upload to the CastleBranch website.

Standard Precautions Education

Because nursing students may have direct contact with blood and other body fluids, William Penn University Division of Nursing requires students to provide proof of Standard Precautions Education/Bloodborne Pathogen. It may come from their place of employment or transfer in from another college institution. If the nursing student has not obtained this education, training and competency will be obtained through the CastleBranch website.

STATEMENT OF STUDENT RIGHTS AND RESPONSIBILITIES

Students' Rights

1. A student shall have the right to participate in a free exchange of ideas, and there shall be no University rule or administrative rule that in any way abridges the rights of freedom of speech, expression, petition, and peaceful assembly as set forth in the U.S. Constitution.
 2. Each student shall have the right to participate in all areas and activities of the University, free from any form of discrimination, including harassment, on the basis of race, color, national or ethnic origin, religion, sex, disability, age, sexual orientation, or veteran status in accordance with applicable federal and state laws.
 3. A student has the right to personal privacy except as otherwise provided by law, and this will be observed by students and University authorities alike.
 4. Each student subject to disciplinary action arising from violations of University Student Rules shall be assured a fundamentally fair process.
-

Students' Responsibilities

1. A student has the responsibility to respect the rights and property of others, including other students, the faculty and University officials.
2. A student has the responsibility to be fully acquainted with the published University Student Rules and to comply with them, as well as federal, state, and local laws.
3. A student has the responsibility to recognize that student actions reflect upon the individuals involved and upon the entire University community.
4. A student has the responsibility to maintain a level of behavior which is consistent in supporting the learning environment of the institution and to recognize the University's obligation to provide an environment for learning.

PRECEPTOR POLICY & PROCEDURES

Preceptor Attendance & Absenteeism

Student engagement and active participation in the learning process is critical to quality instruction. Students are expected to take primary responsibility for making up missed assignments in a timely manner, according to the course syllabus.

To be successful, attendance is expected for all sessions. Attendance is obtained each week. No activity for the week is considered an absence. Students are allowed one excused absence. The first absence will be posted as excused, all others are unexcused.

As a professional requirement similar to expectations in the workplace, students are responsible for notifying the instructor(s) before they are unable to meet the requirements for attendance. This notification should be performed by sending an e-mail or calling the Nursing Office Manager (641-673-1298) and/or the instructor(s).

Students with more than one absence will meet with the Director of Nursing and/or faculty to complete an Accountability Agreement. This will serve as a written warning, and if a second absence occurs, the student may be advised to withdraw from the program.

Any student who fails to attend a specific class during the first week of a semester may lose his or her seat in the class.

Preceptorship Attendance

Accountability is a very important component of learning to become a conscientious nurse. Excellent clinical or preceptorship experience attendance is an example of professional accountability. Nursing students are required to attend all clinical or preceptorship experiences during their program. See Attendance Policy. However, according to the Attendance Policy, the Nursing Faculty recognizes that there may be times when extenuating circumstances legitimately prevent students from honoring their obligation to attend clinical or preceptorship shifts. It is the student's responsibility to make up all Clinical or Preceptorship hours in coordination with the Nursing Faculty/Director and the clinical or preceptorship facility.

Students who will be absent from Clinical/Preceptorship/Learning Experiences for any reason are required to report by phone call or phone message to their Preceptor or Preceptorship Facility. **See Addendum T.**

Nursing Preceptor Policy

Definition: A preceptor is one who promotes the student's clinical lived experiences and new ways of caring and knowing in nursing situations. The preceptor draws upon nursing knowledge embedded in practice and creates a learning environment which is dynamic and innovative. The ratio of preceptors to students will be small, in order to facilitate student learning, socialization to the profession, and mentorship. An exception will be made for management preceptors. Management preceptor may be placed with several students based on the manager's previous experience, evaluation, and individual preference.

Qualifications:

- The nurse should be BSN prepared.
- The nurse should hold an active license as a Registered Nurse in the State of Iowa.
- The nurse should have a minimum of one (1) year of experience as a Registered Nurse and be clinically competent in the area in which he/she is serving as a preceptor.
- The nurse should be recommended for service as a preceptor by the clinical site's Nurse Manager or a professional peer.
- The nurse shall be employed by or maintain a current written agreement with the clinical facility in which a preceptored experience occurs.
- The Nurse's personal philosophy of nursing should be compatible with William Penn University (WPU) Division of Nursing philosophy.

Responsibilities of the Nursing Faculty:

- The nursing faculty is responsible for selecting the preceptor using the above criteria.
- The nursing faculty is responsible for providing the preceptor with the William Penn University Nursing Preceptor Agreement form.
- The nursing faculty is responsible for annually reviewing the nursing preceptor agreement forms.
- The nursing faculty shall retain ultimate responsibility for student learning and evaluation.
- The nursing faculty is responsible for distributing the following materials to the preceptor:
 1. William Penn University Division of Nursing Philosophy and Program Outcomes.
 2. Course outcomes and number of preceptor hours the student needs to complete.
 3. Clinical preceptor evaluation of the nursing student.
 4. Responsibility of the nursing faculty, preceptor, and the student.
- The nursing faculty is responsible for the evaluation of the preceptor and for determining reappointment of the preceptor.
- The nursing faculty is responsible for communicating with the preceptor during the semester.

Responsibilities of the Preceptor:

- Acceptance of the preceptor role within the boundaries of the qualifications.
- The preceptor will complete the WPU Preceptor Agreement form every three years, updating information as needed.
- The preceptor will communicate any concerns about the student with the student and WPU faculty.
- The preceptor or designated RN will complete the course specific evaluation of nursing student.

Responsibilities of the Nursing Student:

- The student will complete all necessary forms for the specific clinical site.
- The student will communicate any concerns about their preceptorship with the preceptor and nursing faculty member. The student will complete an evaluation of the preceptor and the clinical site using the WPU Preceptor Evaluation Form.
- The student will not work the night shift prior to attending their preceptorship and/or class the next day.
- The student is responsible for his/her own transportation. The university is not liable for travel to and from clinical/preceptor sites.
- Write a thank you to their preceptor at the conclusion of their experience.

Evaluating and Reappointment:

Preceptors will be evaluated at the end of the student's preceptorship. Students will complete the WPU Preceptor Evaluation and Clinical Facility Evaluation. Reappointment decisions will be contingent on evaluations and the individual preferences of the preceptor.

UNEXPECTED EVENTS

Dismissal from the Nursing Program

A student may be dismissed from the nursing program for any of the following reasons:

1. Providing false or incomplete information on the application form.
2. Receiving a “C-”, “D” or “F” twice in the same nursing course and/or failing two different nursing courses.
3. Dishonesty (see policy statement in the University Student Guidebook and the ANA Code of Academic and Clinical Conduct).
4. Second violation of clinical agency policy.
5. Placement on an Accountability Agreement for the third time.
6. Unsafe client care (See Nursing Student Guidebook – “National Student Nurses’ Association, Inc. (NSNA) Code of Academic and Clinical Conduct”).
7. Cumulative grade point below 2.75.
8. Determination by the Department of Human Services that the student cannot complete the clinical education component of the WPU nursing program.

Students dismissed from the program for unsafe clinical practice may remain in the classroom but not the clinical, should they grieve the decision. They will be able to participate fully in class, including discussion, testing, and writing assignments. If the outcome of the grievance finds in favor of the faculty member, then the student will be immediately dropped from all nursing classes. If the outcome of the grievance finds in favor of the student, the student will be allowed to make up the clinical time and written work with no penalty.

Grievance Procedure

Policy

William Penn University is committed to a respectful learning environment for all members of the campus community. Students have the right to seek a remedy for a dispute or disagreement when they believe they have been treated in an improper, unfair, or arbitrary manner.

Additionally, students have the right to seek a remedy for institutional or program quality issues, such as William Penn University's compliance with the standards of our accrediting body, the Higher Learning Commission (HLC). No retaliation of any kind shall be taken against a student for participation in a complaint or grievance.

Definitions

1. **Complaint:** a written claim raised by a student alleging improper, unfair, arbitrary, or discriminatory action by an employee involving the application of a specific provision of a university rule/regulation or a William Penn University policy or procedure. A grievance may also be about issues of institutional or program quality.
2. **Appeal:** a request for reconsideration of a grievance application of a policy or procedure.
3. **Retaliation:** retribution of any kind taken against a student for participating in a complaint or grievance.
4. **Student:** an individual student, a group of students, or the student government.

Procedures

Complaints about sexual assault, relationship misconduct, or harassment should be directed to the Title IX Coordinator:

Angella Durian-Gambell, Title IX Coordinator
Penn Hall 202
William Penn University
201 Trueblood Avenue
Oskaloosa, Iowa 52577
(641) 673-1076
gambella@wmpenn.edu

The procedures for all other types of complaints are as follows:

1. When a student has a complaint, she or he shall first meet on an informal basis with the WPU employee directly involved in the dispute in an attempt to resolve the complaint or grievance. For full consideration, the complaint or grievance should be discussed in the semester in which the concern arises, or within the first two weeks of the subsequent term.
2. When a student has a complaint, which remains unresolved after consultation with the WPU employee directly involved in the dispute, she or he may submit a written complaint. The submission of the grievance will be assigned an ombudsperson that will notify the appropriate supervisor that a complaint has been filed.

This notification shall contain a statement indicating the intention of the student(s) to proceed with the complaint and the relief requested. The appropriate supervisor shall respond in writing to the student(s) within fourteen (14) days of receipt of the submitted complaint.

If the complaint is not resolved at the point of the supervisor, the student(s) may appeal to the Vice President for Academic Affairs. The submission of the grievance will be assigned an ombudsperson that will notify the Vice President that a complaint or grievance has been filed. The Vice President shall consider the appeal and make a decision. The Vice President shall respond in writing to the student within fourteen (14) days of receipt.

If the complaint is not resolved with the Vice President, the student(s) may appeal to the University President. The submission of the grievance will be assigned an ombudsperson that will notify the President that a complaint or grievance has been filed. The University President shall respond in writing to the student within fourteen (14) days of receipt of the submitted notice of appeal. The decision of the President is final and binding.

If the initial complaint is with the Vice President, the student may appeal to the President of the University using the same process described above.

Grievance to the Higher Learning Commission

William Penn University is accredited by the Higher Learning Commission (HLC). A student who wishes to file a complaint about William Penn University with the HLC should contact the Commission:

The Higher Learning Commission
230 South LaSalle Street, Suite 7-500
Chicago, Illinois 60604-1411
(800) 621-7440 / (312) 263-0456 Fax: (312) 263-7462
info@hlcommission.org

Record Keeping

The University maintains a record of complaints submitted. The Vice President for Academic Affairs will store all submitted student complaints for academics. Summary information regarding student complaints are presented by the Vice President for Academic Affairs to the President's Cabinet annually in June. Trends are reviewed and utilized in developing policies and procedures to help mitigate further complaints.

The log of complaints and resulting University actions are provided to the Higher Learning Commission, upon their request, and in compliance as part of the University's periodic accreditation review.

Questions regarding the student complaint policy and associated procedures should be directed to the Vice President for Academic Affairs, in person at Penn Hall, room 221, or by telephone, (641) 673-1010.

Readmission to the Nursing Major: Criteria

Students who are eligible to re-apply to the nursing program must do the following:

1. Write a letter to the Division of Nursing requesting readmission to the program and indicating evidence of the potential for success in the program.
2. Re-apply to the Nursing Program. **See Addendum K.**
3. Submit transcripts of any additional course work at other colleges, universities and military training to the Admissions Office who will send it to the Registrar's Office for evaluation.
4. Re-admission interview(s) may be requested.
5. The Division of Nursing will act upon the readmission request and may require proficiency examinations or other requirements prior to re-entering the nursing program.
6. The Division of Nursing will review the previous student file and reason for dismissal /withdrawal.
7. Re-Admission into nursing courses must synchronize with the course sequence.
8. The student's registration in nursing courses will be contingent upon the following:
 - a. Completion of the registration process
 - b. Available space in the courses
 - c. Successfully completing the admission's process
9. Students who have been dismissed may only re-apply once to the nursing program.

Academic Probation for 4-year Pre-Licensure

Any nursing student who fails to meet the cumulative GPA requirement of 2.75 for progression in the nursing major after completing the first semester of junior-level nursing courses will be placed on probation.

1. A student placed on probation will be notified in writing (e-mail is acceptable) of his/her probationary status prior to the first day of classes for the next semester immediately following the term in which the deficit in academic requirement occurred. The student may choose to use his/her academic advisor, other teaching faculty or the Director of the Division of Nursing to assist him/her in exploring concerns, identifying problems and planning actions to meet his/her goals. A formal recommendation delineating appropriate activities may be specified for the student.
2. The student shall be returned to good academic standing and be notified in writing when he/she has achieved a cumulative GPA of 2.75 or higher.
3. The maximum probationary period is one semester. If the student is unable to meet the cumulative GPA progression requirements after this time, he/she will be dismissed from the program.

Academic Probation for RN-BSN

All RN-BSN nursing students are required to maintain a grade of “C” (74%) or above in nursing courses. If the student receives below a “C” grade in nursing courses, they may not progress forward. The RN-BSN student must repeat the nursing class in which they received lower than a “C” when the nursing class is offered again in the curriculum.

A cumulative GPA of 2.5 must be maintained for progression in the program. In the event a student’s cumulative GPA falls below the 2.5, the student will be placed on Academic Probation for the following semester. The RN-BSN student will be contacted by a WPU Academic Advisor. If the student’s cumulative GPA remains below 2.5 after the Probation semester, the RN-BSN student will be suspended from the nursing program. They may resume nursing course work when they have a cumulative GPA of at least 2.5.

Students must complete the RN-BSN program within five years of beginning the program unless provisions are made. RN-BSN courses are only good for five years and some courses are offered in sequence.

RECOGNITION FOR NURSING STUDENTS

Sigma Theta Tau

Students are invited to join the honor society through Sigma Theta Tau Zeta Chapter-at-Large. Currently we are in the process of joining. To find out more about chapters in the region, including benefits of membership access the website at <http://www.nursingsociety.org/>.

Undergraduate Students must:

- have completed half of the nursing curriculum.
- achieve academic excellence. (At schools where a 4.0 grade-point average system is used, this equates to a 3.0 or higher.)
- rank in the upper 35th percentile of the graduating class.
- meet the expectation of academic integrity.

Procedure

- Candidates who meet the qualification for membership will be invited to join.

Additional Recognition of Nursing Students

Additional recognition of nursing students may be acknowledged with the following awards:

- **Alpha Chi** (National College Honor Scholarship Society) admits students from all academic disciplines. Membership is limited to the top 10 percent of our juniors, seniors, and graduate students.
- **Alpha Lambda Delta** (National First Year Student Honor Society) recognizes academic excellence in the first year at William Penn University. Membership is limited to the top 20 percent of the first semester with an earned 3.5 grade point average or higher.

Insight. Inspiration. Ingenuity.

Nursing Student Organization

William Penn University nursing students have the opportunity to belong to the National Student Nurses Association (NSNA) through William Penn University's Total School Membership Plan. Membership in NSNA includes membership in the Iowa Association of Nursing Students (IANS) and William Penn University Nursing Student Association (WPNSA). Membership affords the students multiple opportunities to become involved in recruitment activities, community service and health activities, legislation and education activities, and leadership development activities. Members participate in organizational meetings, committee meetings, and conventions. Participation activities are integrated into the nursing courses throughout the program of study. Newsletters and the student magazine Imprint are also membership benefits.

If questions arise regarding WPNSA membership, the student must meet with the Director of the Division of Nursing. Only the Division Director may excuse the student from NSNA membership.

White Coat Ceremony

Intended for first-year students in nursing programs, the White Coat Ceremony is a rite of passage that often occurs during the initial days of orientation. It serves to welcome students to healthcare practice and elevate the humanism's value as the core of healthcare. It provides a powerful emphasis on compassion in combination with scientific excellence.

The most important element of the ceremony is the oath that students take in front of family members, school leadership, and peers to acknowledge their central obligation to care for the patient.

The white lab coat symbolizes the trust that society places in these student nurses, an emblem of their developing nursing expertise, and a sign of the critical relationship between them and their patients. The white coat is a representation of the student's professional responsibility in the health care professions.

The White Coat Ceremony sets a standard among healthcare professionals by verbalizing the goals of a clinical caretaker. Nurses have come to play such a large role in the clinical setting, and acknowledging them in this way, similarly to those in other health-related fields, will prove to be an unforgettable experience.

and I were beginning to understand the true role of a nurse. We are becoming caregivers, teachers, and advocates, and this is just the start," stated Dr. Kimberly Brown.

Our First White Coat Recipients

Pinning Ceremony

The pinning ceremony is a time-honored nursing school tradition. Often more personally meaningful than the graduation ceremony, it signifies the student's official initiation into the brotherhood and sisterhood of nurses.

The nursing pin is a type of badge, usually made of metal, which is worn by nurses to identify the school from which they graduated. The lamp represents nursing traditions of selfless work and dedication. The significance goes back to Florence Nightingale's service during the Crimean War. She spent long hours attending the wounded and was referred to as the "lady with the lamp". At the pinning ceremony, nurses are presented with nursing pins by either the faculty or a person significant to them.

A formal pinning ceremony is held for graduating senior nursing students and their families prior to graduation. The pinning ceremony will be planned by the graduating class in conjunction with the Division Director. Specific guidelines for the ceremony are available from the Division Director.

In the final semester of nursing courses, students may purchase a WPU Nursing Pin. Upon successful completion of the WPU Nursing Program, students may participate in the Nursing Pinning Ceremony. Order forms are available in the Division of Nursing Office.

May 2021
Graduation

7-15-21

GRADUATION

Graduation Requirements 4-year Pre-Licensure:

The completion of all requirements for graduation is the responsibility of the student. The Bachelor of Science in Nursing is granted to the candidates who have:

- Completed a minimum of 124 semester hours of credit including the required general education, prerequisite, and nursing major courses.
- Minimum of 30 hours at William Penn University, with the last 15 completed at WPU.
- Successfully completed LDRS 290 Quaker Values and LRDS 390 Contemporary Leadership.
- Acquired a WPU cumulative GPA of at least 2.75.
- Filed an Intent to Graduate form with the Registrar within required time period (approximately 12 months prior to anticipated graduation date).
- See University catalog for “Degree Requirements,” and other information.
- Student will complete a Final Evaluation of the Nursing Program.
- Nursing Faculty & Division Director will complete a Summative Evaluation for student file.

Graduation Requirements RN-BSN:

The completion of all requirements for graduation is the responsibility of the student. The Bachelor of Science in Nursing is granted to the candidates who have:

- Completed a minimum of 124 semester hours of credit including the required general education, prerequisite, and nursing major courses.
- Minimum of 30 hours at William Penn University, with the last 15 completed at WPU.
- Students are required to take LDRS 290 Quaker Values & LRDS 390 Contemporary Leadership.
- Acquired a minimum WPU cumulative GPA of at least 2.5.
- Filed Declaration of Intent to Graduate with the Registrar within required time period.
- See University catalog for “Degree Requirements,” and other information.
- Student will complete a Final Evaluation of the Nursing Program.
- Nursing Faculty & Director will complete a Summative Evaluation for student file. See Addendum.

Graduation Summative Evaluation Procedure

Student will complete a Final Evaluation of the Nursing Program. The Nursing Faculty & Director of the Division of Nursing will complete a Summative Evaluation for the student file.

Certification for NCLEX-RN (State Boards)

The Iowa Board of Nursing (IBON) grants Authority to Test (take NCLEX) after the student's graduation date is recorded on the official transcript. IBON will not accept waivers or letters of explanation when degree conferral is earlier than the official transcript date.

A student deficient nine hours or less for graduation may participate in commencement exercises, but he/she will not be certified to take NCLEX-RN examinations until he/she completes the deficient courses and has received an official graduation date from the University. Completion of the deficient courses and the NCLEX-RN application process must occur prior to the administration of the NCLEX-RN examination.

Nursing Graduation Requirements:

1. The nursing major courses must be completed within 5 years for graduation in the nursing program.
2. An intent form provided by the department for graduation must be completed by the candidate by the end of fall semester of the junior year. This form should be sent to the Division Head and Registrar. This intent form enables the faculty to assist the student in the enrollment process.
3. The applicant should meet requirements for graduation as discussed under Criteria for Admission and Progression in the Nursing Major in the Division of Nursing Student Guidebook and all College Requirements.
4. In general, a student is eligible for graduation based on the following criteria:
 - a. Meet general University requirements for the baccalaureate degree.
 - b. Successful completion of course requirements for a Bachelor of Science in Nursing degree.
 - c. Completion of 124 semester hours and all required lower and upper division courses in the Nursing Major.
 - d. Minimum 2.75 cumulative GPA.

Graduation Petition Procedures see Addendum Z

Degrees

William Penn University grants the Master of Business Leadership, Master of Sports Management, Bachelor of Science in Nursing, Bachelor of Arts and Bachelor of Science.

Degree Requirements - Bachelor of Arts/Bachelor of Science

Students must satisfy the degree requirements of any one catalog in effect during their attendance. Students who have had a five-year or more interruption of their college courses at William Penn must use either the catalog of re-entry or one of a later year. In order to receive a degree, students must have fulfilled the requirements as set forth in the catalog. A bachelor's degree requires 124 semester hours of degree applicable credit with a minimum grade point average of 2.0 in all courses taken at WPU and in all courses comprising a major and minor. Some majors have more stringent GPA requirements.

All degree candidates must complete a minimum of thirty credit hours, with the last fifteen credit hours completed at William Penn University. Additionally, a minimum of six credit hours in the major numbered 300 or above must be completed at William Penn University.

Students who intend to graduate within one year must file a Declaration of Intent to Graduate form available from the Registrar's Office. This application constitutes a request for an evaluation by the Registrar's Office, and students are strongly encouraged to schedule a personal interview with their Academic Advisor and the Registrar to review graduation requirements. **The student is responsible for meeting all graduation requirements.**

The University reserves the right to alter graduation requirements and will make every effort to ensure that such changes do not cause undue hardship for currently enrolled students.

Right of Appeal: In the event students feel that the evaluation of course work and/or transfer credits is not accurate, they should submit a written request to the Academic Council via the Dean of the Academics. Students will be notified of the results in writing.

Nursing Licensure for RN-BSN

Registered nursing students are expected to provide a copy of their current nursing Iowa license and provide the nursing staff with an updated copy if the license expires during the nursing program. New ADN graduates may be admitted to the nursing program on a conditional basis during their licensure process. Students who have not passed their nursing boards by the first class with a preceptor must withdrawal from the program; and can reapply once they have successfully obtained registered nurse licensure.

I have read and fully understand the above information.

Student Immunization Requirements

Diphtheria Tetanus (TD/Tdap)-If it has been ten (10) years since you have had any tetanus vaccine, a booster must be given. It is recommended that you get a Tdap booster if it has been at least 2 years since the last Td (to protect you and the population served from pertussis), or you get a Tdap booster if it has been over 10 years since the last tetanus shot of any kind.	Date:
Mantoux Test Documentation of 2-step, yearly. PPD testing within four past years. Results must include date administered, date read, results. If the test expires while enrolled, <u>it is the student's responsibility to bring updated</u> documents to the Division of Nursing and upload to Castle Branch. If results are <u>positive</u> , students must submit a clear chest X-ray done within the past year and maintain annual symptom assessments. Skin test and/or assessment must be provided annually. THE TINE TEST IS NOT ACCEPTABLE	Date:
Seasonal Influenza-Annually.	Date:
* Mumps Immunization-Two doses of the mumps immunization (usually MMR) must be given unless a history of the natural disease is documented by a healthcare provider, or a mumps titer demonstrates immunity.	2 Dates:
* Measles Immunization-Two doses of the measles immunization (usually MMR) must be given unless a history of the natural disease is documented by a healthcare provider, or a measles titer demonstrates immunity.	2 Dates:
* Rubella Immunization-Two doses of the rubella immunization (usually MMR) must be given unless a history of the natural disease is documented by a healthcare provider, or a rubella titer demonstrates immunity.	2 Dates:
Chickenpox (Varicella Zoster) Dates of two doses of varicella zoster or a titer.	2 Dates:
	3 Dates:

Hepatitis B Immunization-Must have a series of three injections given at 0, 1, and six-month intervals or sign a waiver available in the Nursing Office. If the student chooses not to receive the Hepatitis B Immunization, he/she must sign a waiver. (See Addendum #4 for copy of the waiver.)	

* Considered immune if born before January 1, 1957.

**Preceptor sites may require certain precautions, or you may be refused participation at their facility. You are required to follow their policies.

HEALTH OCCUPATIONS
HEPATITIS B IMMUNIZATION
CONSENT FORM

Hepatitis B vaccine is strongly recommended for administration to high-risk groups, including health care workers who are in contact with potentially infectious body fluids. I have read the statement on the reverse side of this form about Hepatitis B and the Hepatitis B vaccine and have had the opportunity to discuss this topic with my physician and ask questions. I understand I must have three doses of vaccine for protection to occur. However, as with all medical treatments, there is no guarantee that I will become immune or that I will not experience adverse effects from the vaccine.

**HEPATITIS B VACCINE
WAIVER FORM**

Hepatitis B Vaccine (Heptavax-B). This vaccine is recommended for administration to high-risk groups, particularly health care workers who are in contact with potentially infectious body fluids.

Three 1 ml. injections – the second completed one month after the initial injection, the third one completed six months after the initial injection are required for full protection.

I understand that due to my occupational exposure to blood or other potentially infectious materials, I may be at risk of acquiring Hepatitis B virus infection. Having discussed this with my physician, my refusal of the vaccine relieves all clinical facilities and William Penn University of any responsibility if I should contract the virus while on clinical rotation.

I have declined to have the Hepatitis B vaccine and take full responsibility.

CLINICAL LAB CONTRACT

I

I, (please print your name) _____, agree to respect the learning environment in the Nursing Clinical Laboratory at William Penn University. I recognize that all students have a right to a non-threatening learning environment. I agree to work with my peers to create a safe and stimulating learning experience. I will foster this type of environment by maintaining confidentiality of all skills, assessment, and simulation experiences including, but not limited to:

- Content of quizzes and exams, including skills exams
- Health history of a peer
- Objective assessment/physical examination of a peer
- Peer performance
- Details of a simulation scenario
- Simulation debriefing sessions

I will not tolerate destructive criticism and/or punitive or negative discussion, either in the Nursing Clinical Laboratory or at another location, regarding another participant's performance. I recognize that all clinical, lab, and simulation experiences are part of learning and collaborative practice.

I understand that if faculty and/or staff determine I am not meeting criteria of this contract, I will be removed from all laboratory experiences. I will be required to meet with the course or laboratory faculty and/or staff and Division Chair as soon as possible prior to the next simulation experience. I understand that if I am not meeting the criteria of this contract, I will receive a written warning and/or Accountability Agreement.

I understand that when available, latex free items have been ordered for the lab; however, some items within the lab including manikins may contain latex. It is the responsibility of the individual student to make it known if they have a latex sensitivity and to take appropriate precautions.

I give my permission for the William Penn University Division of Nursing to video record my performance in assessment and simulation laboratory clinical scenarios. These videoed sessions will be used to provide debriefing opportunities as well as leadership evaluation and quality improvement opportunities to appropriate instructors and participants. Individuals who may view my performance in a videoed simulation is limited to the following:

- Other participants directly involved with or assigned to the specific simulation the participant is taking part in, either as providers of care or as observers
- Faculty and/or staff facilitators of the specific simulation experience the participant is involved in
- Faculty and/or staff coordinators of the nursing course or other education session (i.e., continuing education for RNs) that the specific simulation is associated with and in which the participant is enrolled

- Faculty and/or staff training with the Nursing Clinical Lab Coordinator in facilitating simulation activities

I understand that the videos will only be used for education purposes. I certify that I am 18 years of age or older.

William Penn University
Division of Nursing
STUDENT CIVILITY CONTRACT

According to the American Nurses Association, incivility may be exhibited through behaviors such as rudeness, condescension, passive aggressiveness, bullying, psychological abuse, or deliberate undermining of activities. These types of incivility may lead to an unhealthy work and learning environment in which students feel pressured by peers to look the other way, and thus fail to demonstrate care and compassion for the person experiencing such incivility.

Students in the WPU Division of Nursing are expected to conduct themselves ethically, honestly, and with integrity. This requires the demonstration of mutual respect and civility in academic and professional discourse. Additionally, adherence to the William Penn University code of conduct, Division of Nursing Student Guidebook, and course/clinical guidelines are a basic expectation of students in all interactions with faculty, staff, and patients. Throughout your academic career at WPU, it is expected that students show the following qualities:

- **Attentiveness:** The student regularly attends class. All extended absences are for relevant and serious reasons and approved, where applicable, by the appropriate authority. The student is engaged throughout the class period and refrains from use of electronic/communication devices during class or clinical unless instructor approved (i.e., cell phone use, laptops)
- **Demeanor:** The student has a positive, open attitude towards peers, teachers, and others during the course of nursing studies. The student functions in a supportive and constructive fashion in group situations and makes good use of feedback and evaluations.
- **Maturity:** The student functions as a responsible, ethical, law-abiding adult who makes a positive impact on the adult learning environment.
- **Cooperation:** The student demonstrates his/her ability to work effectively and in a fair, balanced manner in large and small groups and with other members of the health team, giving and accepting freely in the interchange of information and workload.
- **Responsibility:** The student has nursing school performance as his/her primary commitment (i.e., organized and prepared for class, self-directed with problem-solving, use of appropriate resources). Student/student and student/faculty academic interchanges are carried out in a reliable and trustworthy manner.
- **Authority:** A student shows appropriate respect for those placed in authority over him/her both within the University and in society.

- **Personal Appearance:** The student's personal hygiene and dress reflect the high standards expected of a professional nurse.
- **Communication:** The student demonstrates an ability to communicate effectively verbally, nonverbally, and in writing with peers, teachers, patients, and others. Effective communication is also timely with respect to the environment (i.e., initiating conversations with instructor regarding student performance, alerting instructor about class/clinical concerns)
- **Professional Role:** The student conducts self as a professional role model at all times and in compliance with the ANA Code of Ethics. The student demonstrates the personal, intellectual, and motivational qualifications of a professional nurse, including self-care. Self-care is demonstrated by health promotion and maintenance (i.e., adequate rest, proper hygiene, constructive coping)
- **Judgment:** The student shows an ability to think critically regarding options, reflecting his/her ability to make intelligent decisions in his/her personal and academic life.
- **Examples of uncivil behavior are below but not inclusive:**
 - Demeaning, belittling or harassing others
 - Rumoring, gossiping about or damaging a classmate/professor's reputation
 - Habitually interrupting as others speak
 - Not paying attention or listening to others who address you
 - Not responding to email, letters, or voice mail that requires a reply
 - Sending emails that are inflammatory in nature
 - Speaking with a condescending attitude
 - Raising your voice, yelling, or screaming at instructors, peers, or clinical staff
 - Habitually arriving late to class
 - Knowingly withholding information needed by a peer, instructor, or clinical staff
 - Discounting or ignoring solicited input from instructors/faculty regarding classroom and/or clinical performance or professional conduct.
 - Overruling decision without direct discussion and rationale
 - Not sharing credit for collaborative work or not completing an equitable share of collaborative work assigned
 - Threatening others: this refers to physical threats, verbal/nonverbal threats, and implied threats.
 - Displays of temper, tantrums
 - Using up supplies or breaking equipment without notifying appropriate staff/faculty
 - **Expectation of Students:**
 - Follow conventions of good classroom manners and student responsibilities as outlined above.
 - Refrain from making generalizations and use data (facts, observations, measurements, etc.) to support your perspective.
 - Refrain from verbal, emotional or sexual harassment.

- Refrain from electronic harassment via text, email, Facebook, or any other electronic media.
 - Listen respectfully to each other. Respond respectfully and reflectively to ideas aired in the classroom. Understand that disagreements can result in learning opportunities.
 - Refrain from personal insults, profanity, and other communication-stoppers.
 - Recognize and tolerate different levels of understanding of complex social and cultural issues among your classmates and the professor.
 - Arrive timely to class/clinical sessions.
 - Bring the required supplies and be ready to be actively engaged in the learning process.
 - Focus on the business at hand – the class, its content, learning and the professor.
 - Turn cell phones off
 - Remove earbuds, or any other electronic device
 - Refrain from texting during class time.
 - Focus on the business at hand – the class, its content, learning and the professor.
 - Pick up trash upon leaving the room.
 - Refrain from sleeping in class.
 - Turn in assignments on time.
- Be courteous in class. (This does not mean that you must agree with everything that is being said. However, your point will be much more credible if conveyed without rudeness, aggression, or hostility. If you strongly disagree with your professor, it is a good idea to speak with him/her after class)
 - Respect the rules of the syllabus. Faculty are not going to negotiate assignments or grades earned.

By signing this contract, I acknowledge receipt and understanding of this contract. I understand that any behavior or action determined to be a breach of this contract may result in my being subject to disciplinary action, including possible dismissal from the nursing program.

SKILLS REMEDIATION PLAN

Instructor: description of event and concern of student performance:

Student feedback on event:

Detailed improvement plan (what should happen next):

Expected Outcome (with completion date):

Student Signature & Date: _____

Faculty Signature & Date: _____

Reminder: The student is responsible for contacting the lab coordinator within 2 days of signing the SRP for scheduling of a remediation session. The lab coordinator will facilitate remediation and any required evaluation will be completed by the instructor.

Evaluation of the remediation success in either a clinical rotation or a simulation will occur within 2 weeks, or the timeline stated on the SRP. If the remediated skill is not improved, the student will fail the clinical, which will result in failure of the course.

William Penn University
Division of Nursing
Core Performance Standards

ISSUE	STANDARD	SOME EXAMPLES of Necessary Activities (Not All Inclusive)
Critical Thinking	Critical thinking ability sufficient for clinical judgment	Identify cause-effect relationships in clinical situations, develop nursing care plans
Interpersonal	Interpersonal abilities sufficient to interact with individuals, families, and groups from a variety of social, emotional, cultural, and intellectual backgrounds	Establish rapport with patients/clients and colleagues
Communication	Communication abilities sufficient for interaction with others in verbal and written form	Explain treatment procedures, initiate health teaching, document and interpret nursing actions and patient/client responses
Mobility	Physical abilities sufficient to move from room to room and maneuver in small spaces	Moves around in-patient rooms, workspaces, and treatment areas, administer cardio-pulmonary procedures
Motor Skills	Gross and fine motor abilities sufficient to provide safe and effective nursing care	Calibrate and use equipment; position patients/clients
Hearing	Auditory ability sufficient to monitor and assess health needs	Hear monitor alarm, emergency signals, auscultatory sounds, cries for help
Visual	Visual ability sufficient for observation and assessment necessary in nursing care	Observes patient/client responses
Tactile	Tactile ability sufficient for physical assessment	Perform palpation, functions of physical examination, and/or those related to therapeutic intervention, e.g., insertions of a catheter

William Penn University
Division of Nursing
DRUG & ALCOHOL TESTING POLICY

- 1. The William Penn University Division of Nursing has a responsibility to maintain a safe environment for its students as well as maintaining safe conditions for patients. Any student under the influence of drugs or alcohol during a clinical experience may pose serious safety and health risks, not only to themselves, but to all those who work with them and to patients for whom they provide care. The unlawful possession, use, or sale of illegal drugs, prescription drugs, over the counter drugs, and/or alcohol in the clinical agency, poses an unacceptable risk for unsafe patient care.**
- 2. William Penn University faculty, students, and agency RNs are required to report any suspicious behavior and arrange drug and alcohol testing.**
- 3. Reasonable suspicion of substance abuse is considered when any student demonstrates unusual, unexplained behavior in the agency environment or during clinical experiences. Observable signs might include, but are not limited to:**
 - Slurred speech
 - Odor of alcohol on breath or person
 - Unsteady gait
 - Disoriented or confused behavior
 - Significant changes in work habits
 - Observed behaviors indicative of hallucinations
 - Unexplained accident or injury
 - Sloppy, inappropriate clothing and/or appearance
 - Physically assaultive, unduly talkative, exaggerated self-importance, making incoherent or irrelevant statements in the agency setting
 - Excessive sick days, excessive tardiness when reporting for clinical or class
 - Missed deadlines, careless mistakes, taking longer than customary to complete work
 - Coordination (not normal, swaying, staggering, lack of coordination, grasping for support)
 - Performance (unsafe practices, unsatisfactory work)
 - Alertness (change in alertness, sleepy, confused)
 - Demeanor (change in personality, fighting, excited, combative, aggressive, violent, argumentative, indifferent, threatening, antagonistic)
 - Eyes (bloodshot, dilated)
 - Other clinical observations consistent with impairment
- 4. Drug testing may be required for any student who demonstrates behaviors of reasonable suspicion (see #3) in the clinical environment.**
- 5. Drug testing may be required for any student who demonstrates suspicion of substance**

abuse impairment and who has access and/or direct responsibility for controlled substances if known drugs of abuse are missing or otherwise unaccounted for while in the clinical agency. This determination will be made on a case-by-case basis.

- 6. Informed consent will be obtained prior to testing. Fees associated with testing will be the responsibility of the student.**
- 7. Noncompliance with requests for drug and alcohol screening from a student who demonstrates suspicion of substance abuse impairment will be viewed as a violation of the Drug and Alcohol Testing Policy. The student will be subject to dismissal from the nursing program.**
- 8. The collection site will be in a standard collection area laboratory or emergency department. Students who are “off-site” for clinical will be required to return to the Division of Nursing to be escorted to the testing site. Non-acceptable and Acceptable values for lab results will be determined according to the agency policies. Collection procedures will adhere to the required “chain of custody” protocol as indicated by the assigned clinical agency.**
- 9. The student who is suspected of substance abuse impairment will be escorted to the collection site with the appropriate faculty member, assigned preceptor, or approved representative, who will remain at the collection site until the required specimens are obtained. Agency policy will be followed as required.**
- 10. Following an incident that requires drug or alcohol testing, the student will be sent home by cab or responsible individual. Under no circumstances will the student be allowed to drive home. Arrangements will be made so that the student will be at home after the incident with another individual.**
- 11. The student who is suspected of substance abuse impairment will be suspended from all clinical activities until the case has been reviewed by the appropriate personnel of committees.**
- 12. The student’s confidentiality will be strictly maintained. The test results will be communicated only to the student, the physician reviewing the results with the student, Director of the Division of Nursing, the Vice President for Academic Affairs, and the Office Manager.**
- 13. Records will be maintained in a separate file in a secured area. Requests for information will require a court order or may be released by the student’s signed written consent and liability waiver.**
- 14. Any violation of this policy by a student will result in disciplinary action, which may include dismissal from the nursing program.**

**Division of Nursing
Code of Conduct Contract for College Sponsored Activity**

I, _____, hereby agree to fulfill all the terms listed below as a delegate from William Penn University, Oskaloosa, Iowa.

1. I understand that I am a representative of William Penn University, and that I represent it and its interests. As such, I understand that any actions I take during this college-sponsored activity will negatively or positively affect others' opinion of William Penn University.
2. I will attend all on-site and post-trip meetings. I will attend and participate in all aspects of the activities. Should I deliberately miss scheduled activities or leave the hotel or meeting venues without prior consent (of my advisor[s]) I understand that I will be liable for reimbursing William Penn University for any costs they paid associated with my attending the function and may be subject to disciplinary action by the college.
3. As a delegate, I will engage in behaviors that are responsible and mature. Use of alcohol or alcohol intoxication, use of illegal substances, abusive, disruptive, or inappropriate behavior is expressly prohibited as noted in the Student Code of Conduct at William Penn University. **If hotel/facility or William Penn University rules are broken, these actions MAY RESULT IN DISCIPLINARY ACTION BY THE COLLEGE** and revocation of my membership in extracurricular activities.
4. Infraction of these rules (by use of alcohol or alcohol intoxication, use of illegal substances, abusive, disruptive, or inappropriate behavior) may result in breaking hotel/facility or William Penn University rules, and may result in my dismissal from the remainder of the trip. If I am asked to leave, I understand that I must reimburse William Penn University for any expenses covered for my participation in the trip, plus any transportation costs to send me home. I also understand that I may be subject to further disciplinary action from the Director of Student Services or other administrative officials of William Penn University.

I hereby certify that I am a duly enrolled student in good academic standing at William Penn University.

**WILLIAM PENN RN-BSN NURSING PROGRAM
FINAL EVALUATION FORM**

**WILLIAM PENN
UNIVERSITY**

STUDENT'S NAME:					
ENTRANCE DATE:		FINISHING DATE:			
EVALUATION	EXCELLENT	ABOVE AVERAGE	AVERAGE	BELOW AVERAGE	NOT OBSERVED
PROFESSIONAL BEHAVIORS:					
1. Exhibits Leadership, safe and holistic care.					
2. Demonstrates comprehensive assessments.					
3. Formulate plans of care for diverse populations.					
4. Practices within legal, ethical, and regulatory frameworks.					
5. Ongoing professional development.					
6. Lifelong learning and commitment to service.					
EVIDENCE BASED PRACTICE:					
1. Integrates multi-level evidence for optimum safe care.					
2. Implements methods of evidence-based learning.					
3. Analyze evidence based practice to improve patient outcomes.					
4. Implements methods for quality improvement.					
5. Identify discrepancies between standards and practice.					
INFORMATICS:					
1. Utilizing information systems and current technology.					
2. Gather data to deliver safe care.					
3. Evaluates data to improve patient outcomes.					
LEADERSHIP SKILLS					
1. Appraise the impact of healthcare policies					
2. Apply leadership concepts for high quality and safe care.					
3. Apply leadership methods utilizing critical reasoning.					
4. Presents self as a leader in delivery of high quality care.					
5. Demonstrates commitment to service.					
6. Demonstrates five Quaker Principles as a priority.					
CARING INTERVENTIONS:					
1. Provides holistic nursing care to all communities.					
2. Employs caring within their nursing practice.					
3. Demonstrates effective self-care.					
4. Communicates in a caring manner to all communities.					
5. Applies Jean Watson's Ten Caritas Processes when caring for self and others.

*****THIS FORM MUST BE KEPT IN STUDENT REGISTRAR FILE FOR THREE YEARS*****

Rubric for Final Evaluation Tool

Excellent: Consistently demonstrated all outcomes with excellence. Definition of – “consistently and without error” – Received A’s on graded assignments

Consistently demonstrated accountability by providing safe and holistic care with excellence and without error
Regular class/clinical attendance with no more than one absence during each class per semester
Assignments were accurate, complete and met all assigned deadlines with excellence and without error
Assignments represented excellence in scholarly writing, inquiring and analysis without error
Consistently demonstrated excellent leadership skills with positive attitude and actions in classroom
Consistently improved in the classroom and clinical after self reflection
Consistently demonstrated excellent professional image with dress, leadership skills and overall attitude while enrolled
Consistently demonstrated excellence in nursing practice within legal, ethical and regulatory frameworks
Consistently demonstrated excellence in methods of evidence-based learning
Consistently demonstrated excellence in use of information systems
Consistently demonstrated excellence in effective self care
Consistently communicated in a caring manner to all inter-professional teams with excellence
Consistently utilized JW Process and QP while enrolled in the RN-BSN program

Above Average: Satisfactorily demonstrated the majority of outcomes with above average effort. Definition of – “satisfactorily and with marginal error” – Received A’s on the majority of graded assignments

Satisfactorily demonstrated accountability by providing safe and holistic care
Regular class/clinical attendance (no more than 1-2 absences during each class)
Assignments were satisfactory with accuracy, completeness and met all assigned deadlines with marginal error
Assignments were completed satisfactorily with scholarly writing, inquiring and analysis with marginal error
Satisfactorily demonstrated leadership skills with positive attitude in classroom with marginal error
Satisfactorily improved in the classroom and clinical after self reflection with marginal error
Satisfactorily demonstrated a professional image with dress, leadership skills and overall attitude while enrolled with marginal error
Satisfactorily demonstrated nursing practice within legal, ethical and regulatory frameworks with marginal error
Satisfactorily demonstrated methods of evidence-based learning with marginal error
Satisfactorily demonstrated use of information systems with marginal error
Satisfactorily demonstrated effective self care with marginal error
Satisfactorily communicated in a caring manner to all inter-professional teams with marginal error
Satisfactorily utilized JW Process and QP while enrolled in the RN-BSN program with marginal error

Average: Satisfactorily met most program outcomes with average effort. Definition of – “satisfactorily and with some error” majority of grades were B’s on graded assignments

Demonstrated accountability by providing safe and holistic care with some error
Regular class/clinical attendance (no more than 3 absences during each class)
Assignments were satisfactory with accuracy, completeness and met all assigned deadlines with some error
Assignments were completed satisfactorily with scholarly writing, inquiring and analysis with some error
Satisfactorily demonstrated leadership skills with positive attitude in classroom with some error
Satisfactorily improved in the classroom and clinical after self reflection with some error
Satisfactorily demonstrated a professional image with dress, leadership skills and overall attitude while enrolled with some error
Satisfactorily demonstrated nursing practice within legal, ethical and regulatory frameworks with some error
Satisfactorily demonstrated methods of evidence-based learning with some error
Satisfactorily demonstrated use of information systems with some error
Satisfactorily demonstrated effective self care with some error

Satisfactorily communicated in a caring manner to all inter-professional teams with some error
Satisfactorily utilized JW Process and QP while enrolled in the RN-BSN program with some error

Below Average: Inconsistently met program outcomes with below average effort. Definition of – “inconsistently and with little effort or with error” majority of grades were C’s or below.

Inconsistently demonstrated accountability by providing safe and holistic care with little effort
Inconsistence class/clinical attendance (1-4 absences during each class)
Assignments were inconsistent with accuracy, completeness and met all assigned deadlines with little effort
Assignments were inconsistent with scholarly writing, inquiring and analysis with little effort
Inconsistent leadership skills with poor attitude in classroom with little effort
Inconsistent improvement in the classroom and clinical after self reflection with little effort
Inconsistency with a professional image with dress, leadership skills and overall attitude while enrolled with little effort
Inconsistently demonstrated nursing practice within legal, ethical and regulatory frameworks with little effort
Inconsistently demonstrated methods of evidence-based learning with little effort
Inconsistently demonstrated use of information systems with little effort
Inconsistently demonstrated effective self care with little effort
Inconsistently communicated in a caring manner to all inter-professional teams with little effort
Inconsistently utilized JW Process and QP while enrolled in the RN-BSN program with little effort

Final Evaluation by Clinical Preceptors of Nursing Student Performance
NURS 302 Leading & Managing for the RN-BSN

Student's Name: _____

The following are a list of outcomes for the students to accomplish during their clinical experiences in leadership. Please respond to each of the outcomes by circling the number, which most closely corresponds to your evaluation of the degree of attainment for each outcome. Please review each of the outcomes with the student and add any comments that would be helpful. If needs improvement is circled, please indicate specific areas that need to be addressed.

- 3 – Strongly Agree: In greater depth or to greater degree than most students
- 2 - Agree: About the same depth or degree as most students
- 1 - Needs improvement, Less depth or degree than most students.

1. The student will come to know and integrate theories and leadership/management concepts underlying care management situations. 3 2 1
Comments:

2. The student will demonstrate an understanding of various legal and ethical issues as appropriate to the clinical setting. 3 2 1
Comments:

3. The student will apply outcome assessment concepts (quality, safety, and risk) within the care management environment. 3 2 1
Comments:

4. The student will critically analyze the elements of resource allocation and cost containment in care management situations. 3 2 1
Comments:

Continued next page

5. The student will develop abilities to prioritize, manage time, and delegate appropriately in care management situations. 3 2 1

Comments:

6. The student will come to new understandings of the concepts of change, conflict management, and decision making. 3 2 1

Comments:

7. The student will demonstrate an understanding of various care delivery strategies and staffing patterns. Comments: 3 2 1

8. The student will be accountable to the manager.

Comments: 3 2 1

APPLICANT IDENTIFICATION AND RELEASE REGARDING INVESTIGATION OF FOUNDED CHILD OR DEPENDENT ADULT ABUSE, CRIMINAL HISTORY AND DRIVING RECORD IDENTIFICATION:

(Please Print)

Nursing Essentials I/Nurse Aide (CNA)

Name:

Last First Middle

Alias, Maiden, previous Married Name (Please list every previous name)

Street Address City State Zip

Date of Birth Social Security Number

Race Sex (M/F) State Issuing License

Do you have a record of founded child or dependent adult abuse or have you ever been convicted of a crime in this state or any other state? _____ No _____ Yes

If yes, please explain the nature of the incident and date of occurrence.

AUTHORIZATION AND RELEASE

The undersigned acknowledges:

1. I have executed this document in conjunction with admission into a health sciences program at William Penn University. (Hereinafter referred to as "WPU") and Indian Hills Community College District (Hereinafter referred to as "IHCC").
2. I hereby authorize WPU and IHCC access to any criminal history record produced by federal, state or local law agencies
3. Pertaining to me.
3. I agree to release WPU and IHCC and any other person, company or other entity from any and all causes of action that otherwise might arise from supplying clinical agencies with information they may request pursuant to this release.
4. I understand that any false answers or statements or misrepresentations by omission made by me on this form or any related document will be sufficient cause for rejection of my application or for my immediate discharge should such falsifications or misrepresentations be discovered after the program begins.
5. I understand and agree that if I am rejected for participation in a clinical experience by an affiliating agency or if I refuse to submit to the registry checks that are required by an affiliating agency, I will be unable to complete my program of study in the specified program.
6. I understand that during my educational program at WPU and IHCC, it is my responsibility to report any criminal, child abuse and adult abuse charges pending against my record. I further authorize WPU to conduct background checks on my record at any time during my educational program as needed.

Applicant Signature _____ Date _____

Student Guide to Moodle

Goals: To introduce Moodle software to our students.

Objectives: After completing this orientation you will be able to navigate your Moodle Dashboard, identify key elements of a course (e.g., Topics, Blocks, Activities, Resources), use the activity modules showcased in the course, and interact with the course professor and other students.

How to log in to Moodle

1. Browse to <https://wpuelearning.wmpenn.edu>
2. Use your William Penn University credentials for log in (*note. use your full username with AT wmpenn DOT edu*) and password.
3. Click the “Sign in” button.

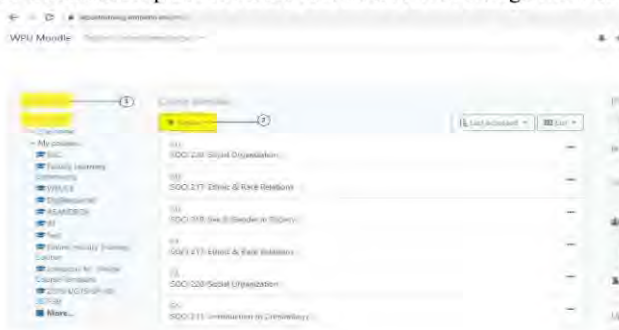

How to Find your Courses

If a student is enrolled in any courses, they will appear in the “Navigation” box located in the left column of the Moodle main page (hereon referred to as the Moodle Dashboard). Once they log in a list of their courses will appear in the “Navigation” box in the left column of the Dashboard.

“In progress” courses will be in the “Course overview” box located in the center column of the Dashboard. This box will be blank if not enrolled in courses that are currently in session.

Go to “Course overview” to find previous courses that have ended by using a filter of “Past.” To find courses that will be taken place in future semesters/terms change filter to “Future” courses.

Entering the course

When a student first access Moodle they will see the Dashboard. It contains “My courses”, calendar, upcoming events and more.

To find a course select it from “Course overview” in the center column. Select the course, click on the text of the course’s title.

In the course

The above image displays a typical course home page. The course name will be displayed at the top of the page, and a list of content in the course will be displayed in the “Contents.” Most courses will have a welcome topic, which contains the course syllabus, course schedule, professor’s contact information, and other course content. These topics are separated out by weeks, lessons, or units.

Basic Navigation

There are a number of ways to move around the course.

1. **Breadcrumb trail navigation** – is a menu positioned below the William Penn University logo which shows student’s position in the course. The notes below the following breadcrumbs are examples that will make this clearer.

SOCI 220: Social Organization

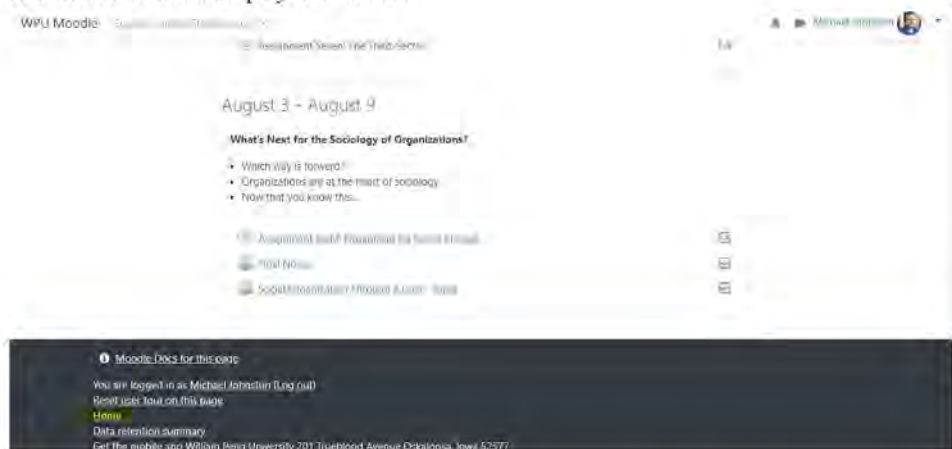

Dashboard / Courses / 2020 / UG19 / SU / 2020-UG19-SU-SOCI 220-39 / June 15 - June 21 / Assignment One: Defining Organizations and Identifying

- Dashboard – Clicking on this would take the student to a screen which displays all the courses they are enrolled in.
- 2020-UG19-SU-SOCI 220-39 – This is the abbreviated name for this course, clicking on this takes a student to the main course page.
- Assignment One... -- This is in a different color and indicated that this is the activity the student is currently viewing.

This is only one example of how the breadcrumbs menu may appear. A student should keep an eye on this as they navigate around the course; students will notice that the breadcrumb menu changes to reflect their current position.

2. Another method for navigating can be found at the foot of each screen or activity. This takes the form of a text link which will take a student either to the Dashboard or the main screen

of a course. The link displays as “home”.

3. If only one topic is showing at a time, a student can move to another topic in the course by using the “jump” menu.

Note. If a student uses the back button on the browser, click on the “Home”, or shortened course name links to navigate to another area of the course a student’s input may not be saved. To avoid this always ensure that a student complete what they are doing within the activity first (e.g., post to a forum, save changes, update).

4. Throughout the website/courses a student will encounter text which changes color and becomes underlined when they move their on-screen cursor over it. These are text links which, when clicked, will take a student to the described in the link text.
5. Finally, it is possible to navigate between pages by using the navigation buttons on the web browser. This is not recommended; a student will obtain more consistent results by using the navigation options within the website/course pages.

The main course page is divided into several specific areas which a student will encounter often (although not necessarily always as mentioned earlier). An overview is given in the following sections:

Topics

Topics are in the center column of the course main page. Topics are where activities, forums, resources, etc. are placed by the professor, they make up the online elements of the course. Different professors design their course so appearance may vary. Topics may be identified by a number, a number and date range, or by a descriptive name.

To access files or activities, select from the course homepage. This will load the content or assignment. Use the back button or breadcrumb link to navigate back to the course home page.

Blocks

In the left and right columns of a course home page are special content objects called blocks. These can be turned on and off and moved around by the professor, in most cases a student will see the following blocks somewhere on the left or right column of the course home page.

1. **Participants** – Contains a list of students who are in the course.
2. **Activities** – A list of links to various special features of a course, including assignments, forums, quizzes, and other elements created by the professor. An activity is an interactive learning segment for a student in a course.
3. **Resources** – is the tool that professors use to present information to students. Resources include items like text documents, PowerPoint files, websites, etc. A student will gain information about a course through resources.
4. **Administration** – is the place a student can view their gradebook and modify their personal profile. The Edit profile section gives students an opportunity to modify some feature of the course. In this section a student can upload a photo of themselves, which appears by their personal messages.
5. **My courses** – This block is the same one a student sees when they log in and provides quick links to move to other areas of the Moodle site.
6. **Recent activity** – displays a student's recent modifications made by the professor to the course since the last time the student logged in.

Note. By clicking on the "minus sign" icon at the top of each block closes it to reduce screen clutter. A student can open at any time by clicking the "plus sign" icon.

Completing Assignments

The above image depicts a typical lesson topic in a course. Professors will add resources such as pages, PDF files, or other content to a topic, as well as activities, assignments such as quizzes, forums, and assignment drop-boxes. These resources and activities can be accessed by selecting the link on the course homepage.

Forums

The forum feature of Moodle is an online discussion board. Its main purpose is to provide a structured way for students to exchange comments with others and the instructor in a public forum. A student's comments or messages will be posted in a forum and an email will be sent to the professor and fellow students in the course. Allowing students to be able to keep up with recent posts without having to log into the system. These messages will be saved in the student's forum area of the course. If a student happens to delete or misplace an email message from the course, they will be able to locate a copy of it in their course's forum area.

In a discussion forum, professors will generally provide a topic for students to post responses and may require a respond from/to other students' posts on the topic. The Discussion Forums may be used for other uses so read carefully what the professor is requiring. If the professor puts a forum in the course, the link on course page will look as follows:

Assignment On...

This will take a student to the discussion forum. A student will be able to read forum instructions, add a post, and read/reply to other's posts.

To post a new thread in a forum

To post, read the instructions and requirements for the discussion forum. To add a post to the forum completed the following:

1. Click on the forums link then click "Add a new discussion".
2. Give the thread a title in the Subject heading
3. Type a post in the Message Section.
4. Check the post for errors then click "Post to forum" below the message section. A student will have 30 minutes to edit their post after posting.

Be sure to change the Subscription setting to reflect preferences – if a student wants to receive emails of every post to the forum, set it to "Send me email copies of posts to this forum." If not, set the forum to "I don't want email copies of posts to this forum." Some professors may have set their forums to force students to be subscribed or not allow students to be subscribed, in which case this option will not appear.

To reply to a thread

Click on the name of the thread in the forum and click the "Reply" link at the bottom right of the post to which a student will want to reply. The fields are the same as they are form making a new thread.

A student can change whether they are subscribed to a forum at any time by clicking on the name of the forum, then clicking the "Subscribe/Unsubscribe me from this forum" link at the bottom right of the window.

Sending and receiving messages

To send messages via Moodle to classmates, under the course heading (located in the left column of the Moodle page) click on "participants" and then click on the name of the person the message is for. Finally, click on the button that reads "send message." Please note, if both students are logged into Moodle at the same time it will act as an instant message service.

How to turn in documents for an Assignment (dropbox)

When professors require students to turn in an essay, project, or coursework in Moodle, they will have students use the assignment activity. (Note. Some professors refer to an assignment as a dropbox). Each essay or project will have its own assignment. To access the assignment, use the assignment's link on the course homepage.

This will take students to the assignment page. A student will see their professor's directions, for the assignment, the *Submission status*, and the *Add Submission button*.

If the professor has asked students to submit a file for the assignment, they can do this by *dragging-and-dropping* the content into the file upload section of the page or use the file picker (by selecting *upload a file* and using the *Browse button* to locate the assignment file on their computer or flash drive). Once students have located and selected the file, use the *Upload this file* button to finish the upload process. Verify the correct file appears in the file submission field then select save changes (if required by the course professor).

If the professor has enabled draft mode, the assignment submission status will remain in *draft (not submitted)* status and students will be required to use the *Submit assignment* button to finish the process. Once the assignment has been fully submitted, a student will see the *Submission status* indicated as *Submitted for grading*. When submitting an assignment, the professor may have enabled a feature which allows students to provide a comment with the submission. If enabled, students will see the *Submission comments* section on the *Submission page*. Using the comments link will allow students to enter a comment for the professor. When finished entering their comment, use the *Save comment* link to add the comment to the submission.

How to begin exams and quizzes

Be sure to study the course material before beginning. Most exams will have a time limit and it is imperative that students use their time wisely. Being prepared will reduce much of the stress associated with taking exams.

Be sure to have enough time designated to completing the exam before beginning. Once a student presses the start button on an exam, the timer will begin the count down until the time has expired, whether a student is actively taking the exam or not.

Do not navigate to other pages in Moodle while having the exam open. This can cause issues with a student's submission.

Be sure to have a reliable Internet connection. A student should only start exams from reliable Internet connections. If a student has unreliable Internet, they may want to take the exam on campus at the library, student computer centers or at the public library.

Be sure to fully submit the exam once finished. If a student navigates away from the exam before completing the submission process their exam may not save properly, or other issues could arise.

If issues arise

Be sure to contact the professor immediately to make them aware of the issues. Then contact William Penn University Information Services (<https://www.wmpenn.edu/student-life/information-services/>).

Starting the exam or quiz

1. Select the exam from the course home page.
2. The next page has the professor's directions for the exam, information about the number of attempts allowed, time limits, and the *Attempt quiz now* button
Note. A student needs to make sure they have enough time to finish the exam.
3. Once prepared a student should go over the professor's directions, use the *Attempt quiz now* button to begin their attempt.

4. A confirmation box will load, reminding the student of the time limit and number of attempts. If a student is ready to begin the exam, use the *Start attempt* button to begin.

Taking an exam or quiz

1. After starting the first page of quiz questions will be displayed along with the quiz timer in the top left column of the page.
2. To answer multiple choice or true/false questions, simply select the answer the student believes is correct. Some questions may have a drop-down menu to choose from. For essay and short answer questions, a student will need to type their responses into the indicated fields.
3. Once a student have answered all of the questions on a page, use the Next button at the bottom of the page to navigate to the next page, or begin the submission process if a student is on the last page.
4. This will show a summary of the students attempt, including any unanswered questions and the amount of time remaining. If a student has skipped a question, it will be shown here as Not yet answered. A question's number under the question heading is a link that can be used to take the student directly to a question. The Return to attempt button will take the student to the beginning of the exam.
5. After a student verifies they have answered every question and are satisfied with their attempt, use the Submit all and finish button to submit the attempt for scoring.
Note. Depending on the professor's settings, this will take a student to a review. Here they can see a review of their attempt, which will show the student information about each question and results.
6. When the review of the submission is complete, use the Finish review link at the bottom of the page to end the review. This will take the student back to the start page of the exam or quiz. This page will give the student an overview of their previous attempts and enable the student to attempt the exam again if the professor allows more than one attempt.

Activity Completion and Conditional Access

Activity Completion allows instructors to set up criteria to set a point when an activity is completed. This can be done either by allowing students to manually work their own completion (a nice way for students to keep a checklist of class activities completed) or by setting some criteria based on things like Activity Viewed, or Student Receives Grades. This Activity Completion might be used in conjunction with Conditional Access, effectively restricting access to certain activities, until a student has completed prior objectives. The activities that are completed will either have check marks placed in the box next to the assignment name after the student has successfully completed it (or students will be able to manually place a check mark in the box by clicking it with their cursor button).

Conditional Access allows instructors to set up "self-paced" learning in which students can complete certain activities to unlock the next resource or activity. If any activity is restricted with Conditional Access settings, students will see the Activity hidden until they complete the necessary criteria.

Grades

Students can check their grades by going to the course's home page. In the Course list menu select grades. This loads the User report, which lists a student's grades for each assignment and their course total. Students may contact their professor if they have any questions about their grade.

How do I contact my professor?

Questions about course, course material, coursework, or grades should always be directed to the professor. To contact the professor on Moodle it is simple. From the course homepage, identify the *Quickmail* tool. Select *Compose New Email*. Select the name of the professor in the *potential recipient list*. When the professor's name is highlighted, use *Add* button. This will move the professor's name into the *Selected Recipients* field. Scroll down on the page to locate the *Message composition* area. Students can attach any desired files, add a subject, and type a message to their professor here. If a student would like to receive a copy of their email, select *Yes* beneath *Receive a copy*. Use the *Send Email* button when finished to send the email.

The Moodle Quickmail will go to William Penn University email accounts. This will be true for all students and faculty. The Quickmail cannot be checked from Moodle. Faculty and students can check their Quickmail by using their William Penn University email account which can be found at <https://www.mail.wmpenn.edu>

Other methods to contact the professor is by checking the course syllabus to identify their contact information. Please make certain to check for preferred ways of communication and expected response time.

Other tips... **Be** polite, Students should **use** proper salutations when referring to the professor (e.g., always refer to the professor as doctor or professor [last name] and never start an email with "hey..." or "yo..."). **Use** complete sentences, **Don't** type in all caps – in online communication, it can be perceived as screaming, and **Don't** use bright or hard to read fonts.

Your profile

A student's profile is their identity on Moodle. All William Penn University Moodle users can see it, including the faculty.

To edit a student's profile

To access a student's profile, click on their name in the top right-hand column of the Moodle page. Then click the "Profile" tab. Then click "Edit profile" in the "User detail" box on the page.

Michael O. Johnston earned his Bachelor of Arts (BA) degree with a double major in Sociology and Psychology from Buena Vista University in 2007. Masters of Public Administration from Iowa State University in 2009, and Ph.D. of Public Administration from Walden University in 2014. His dissertation research, entitled *Understanding Violent Adolescent Males: Implications for Post-Release Recidivism*, is on the barriers and supports that exist for middle adolescent males who were found guilty of simple assault. He recently presented his dissertation research at a round-table session during the 69th Annual Meeting for the American Society of Criminology (ASC) on November 20-23, 2013 in Atlanta, Georgia.

Dr. Johnston joined William Penn University as an adjunct instructor for sociology in 2010, was promoted to full-time instructor of sociology in fall 2013, and became an assistant professor of sociology for the university in fall 2014. He previously taught as an adjunct faculty member for Buena Vista University in their online program and as a lecturer for Iowa State University in their Masters of Public Administration program. Prior to academia he worked as a lead teacher for a before and after school program. He is the president of Young Professionals (YP) of Pella.

Listed interests:

Optional:

Other fields:

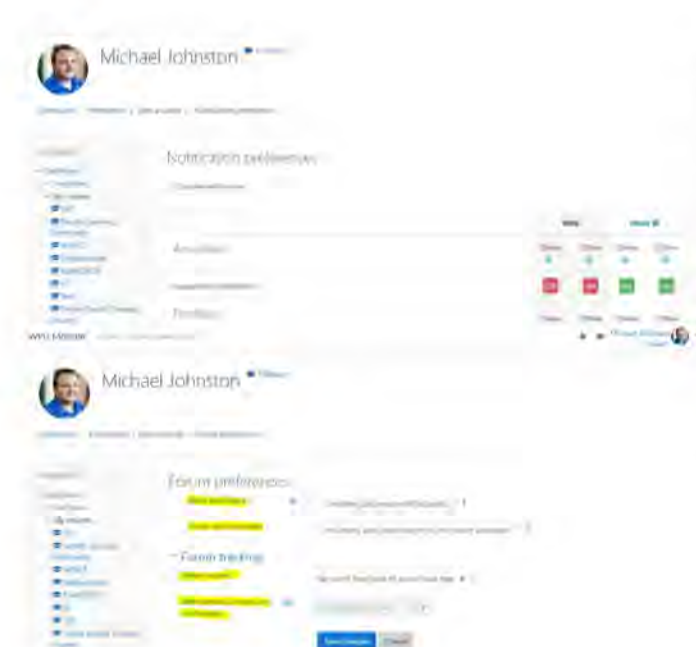

Custom profile

Note. A student will want to add credentials to the "Description" area of their page and a professional photograph (e.g., the picture used for an athletic profile or their high school senior photograph would be appropriate for this page) to "User picture". Please use either a GIF or JPG format and keep the picture small (about 100x100 pixels max with a file that is less than 500 KB). Again, remember that this profile is accessible to all members of William Penn University – this icon will be visible to the professors and everyone who is on Moodle. The same caution is applicable to any personal description a student might include.

Students may also want to add "Interests" (otherwise known as "hashtags") to make their profile more visible to others on campus who might be using Moodle to find someone with common interests. As always, make certain to "Update profile" after they make any modifications they desire to keep on the page.

Preferences

There are several other settings that are accessible from "Preferences" that will help a student's page be customized. Some of the more useful ones are:

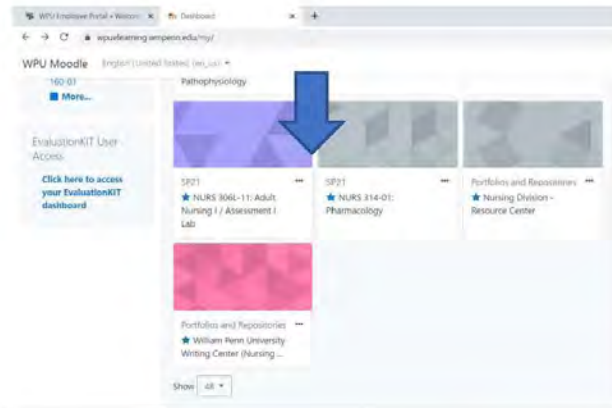

Notification preferences – Allows users to control when (online and/or offline) and how (via the Web and/or Email) they receive notifications relating to a variety of different tasks on Moodle (e.g., assignments, feedback, forums, open forums, lessons, questionnaires, scheduler, Turnitin assignments, system)

Forum preferences – Allows users to make modification to the way their email digest, forum auto-subscribe, and forum tracking appears. Email digest type allows users to choose how they receive all emails from Moodle in one daily message. Users who select the “Yes...” value will be subscribed to any forum to which they post a message. Forum track, if set to “Yes...”, unread forum messages will be highlighted so that it is easier to see which messages are new.

Every nursing student will be enrolled into the classroom called Nursing Division – Resource Center. This classroom should always remain in progress and will follow them from term to term. It will fall in the middle tile block along with other Moodle courses.

The Resource Center has specific information for nursing students only. Please check this classroom often. There are plenty of resources for the nursing students and even a spot to ask questions!

Declaration of Intent to Graduate

Students who intend to graduate within one year must file a Declaration of Intent to Graduate form available from the Registrar's Office. This application constitutes a request for an evaluation by the Registrar's Office, and students are strongly encouraged to Schedule a personal interview with their Academic Adviser and Registrar to review graduation requirements.

The student is responsible for meeting all graduation requirements.

The University reserves the right to alter graduation requirements and will make every effort to ensure that such changes do not cause undue hardship for currently enrolled students.

INSTRUCTIONS / TIPS FOR COMPLETING INTENT TO GRADUATE FORM

IMPORTANT: This application must be signed by yourself and your Academic Advisor before it is submitted to the Registrar's office. The student is responsible for submitting the application with an attached degree audit before the deadline posted on the Academic Calendar. Do not include this instruction page when you submit your INTENT form. After your form is submitted, a degree audit will be conducted by the Registrar's staff, and an email confirming your remaining requirements will be sent to you and your academic advisor.

STUDENT INFORMATION: Please print legibly in ink.

Circle Degree you plan to earn. Complete term / year you plan to graduate [example: December / 2017 (FALL)].

Date of Catalog is usually the year you started at WPU, unless you are following a newer revision of major.

DIPLOMA MAILING ADDRESS: List address where you want your diploma to be mailed. Contact the Registrar immediately, if your address preference changes.

DIPLOMA NAME: Clearly print your name exactly as you wish it to appear on your diploma. One letter, space, or punctuation mark per block. Leave a blank space wherever a space appears in your name, as in Van_Duff or VanDuff. Include any suffixes, middle initials, etc. that you wish to appear on your diploma. Make sure any special characters are clearly defined. This will be how your name will be printed in the program and how it is read during the ceremony. Example below.

[illegible]

CEREMONY PARTICIPATION: WPU has one Commencement Ceremony each year in May. Check the box below regarding your plans to participate in the graduation ceremony. If you change your mind, please contact the Registrar's Office immediately.

Indicate if you (student) need ramp access to the stage due to difficulty climbing stairs.

Indicate if any guests require special seating (such as guests using wheelchairs) or other special considerations. Please describe the special need.

GRADUATION FEE: A \$100 fee is assessed to all graduating students' accounts. This fee is not affected by ceremony attendance.

COURSEWORK TO BE COMPLETED: With your faculty advisor, please list all coursework that still needs to be completed. (If you are pre-registered for the next semester, these courses do not need to be listed.) Please attach a degree audit (or major check sheet listing completed coursework) with your Intent form.

If you plan to take coursework at another school, please list when and where these courses will be taken. Please complete a Pre-approval form for these courses and get approved by the Registrar. In some cases, a Waiver of Residency form may also be required.

Official transcripts from other schools, must be received for transfer credit consideration. The deadline for WPU to receive these transcripts is generally 3 days before the end of your last semester.

Graduation requirements include completing all coursework for your declared major(s), minor(s), and the Penn Core. A minimum GPA of 2.0 is required in your major(s), minor(s), and overall GPA must also be 2.0 or higher. A minimum of 124 degree applicable credit hours is also a degree requirement. No more than 6 PE activity/team credits can be counted towards graduation hours. Courses numbered below 100 (or other remedial coursework) are not applicable for graduation credit.

Education majors have other specific requirements and should refer to the Education division for additional information.

TO APPLY FOR IOWA EDUCATIONAL LICENSURE: Secure application form from the Education Office. Complete applicant's portion of this form and return it to the Ed. Office. This will be submitted by the Ed. Office *after* all requirements for this certificate are met.

If you are unable to complete the graduation requirements as outlined, the INTENT form will automatically 'roll-over' to the next semester, *if you continue enrollment the next semester, or have made other previous arrangements*. If you do not continue enrollment, you will need to reapply for graduation privileges.

An email is sent out from the Dean's office, usually in February or March, for all Commencement participants, with graduation commencement information. Check your student email for this informational email!

Thank you and Congratulations!

DECLARATION OF INTENT TO GRADUATE

STUDENT INFORMATION:

STUDENT NAME: (last, first, mi) _____ STUDENT ID#: _____

PHONE #: _____ WPU EMAIL: _____

INTENDED DEGREE: *MBL BA BS BSN AA* CATALOG YEAR UNDER WHICH YOU PLAN TO SATISFY DEGREE REQUIREMENTS: _____

GRADUATION TERM, WHEN ALL REQUIREMENTS WILL BE COMPLETED (NOT CEREMONY TERM):

DECEMBER/20 (FALL) ~ MAY/20 (SPRING) ~ AUGUST/20 (SUMMER)
